中文版序

Slowo do wydania chińskiego Wydania narodowego Dzieł F. Chopina

Ogromną radość sprawia mi fakt, że redagowane przeze mnie wydanie źródłowe Dzieł Chopina będzie dostępne na rynku księgarskim w Waszym kraju. Kiedy przed ćwierć wiekiem miałem okazję go odwiedzić, zauważyłem u pianistycznej młodzieży chińskiej znakomite dyspozycje do wykonywania muzyki Chopina. Następne lata potwierdziły tę moją opinię sukcesami chińskich pianistów na estradach świata i Polski, też na Konkursach Chopinowskich. Życzę chińskiej młodzieży pianistycznej, jak również pedagogom, muzykologom i melomanom jak najlepszego poznania muzyki największego polskiego twórcy muzycznego, którego pełnemu zrozumieniu ma służyć nasze wydanie.

波兰国家版《肖邦钢琴作品全集》

在中国图书市场上将出现由我本人编订的原始版肖邦作品集,我十分欣慰。上世纪80年代初,我曾有机会访问中国。当时我就在中国钢琴学子身上发现,他们具有演奏肖邦音乐的良好素质。在之后的年代里,中国的钢琴家在波兰和世界的舞台上,以及在肖邦钢琴比赛上所取得的成就,都证实了我的看法。我要对中国钢琴青年以及教师、音乐学家和音乐爱好者致以真诚的祝愿,祝愿他们对波兰最伟大的作曲家的音乐能有更深透的认识,我们的这个版本正是为了充分理解肖邦而推出的。

扬·艾凯尔

序 一

傅 聪

闻悉上海音乐出版社将出版由肖邦研究权威艾凯尔编订的波兰国家版《肖邦钢琴作品全集》，甚感欣慰！从此，中国读者终于有幸拨开重重迷雾，正本清源，领略肖邦作品的真实面貌，并切实体会肖邦音乐的风格特色。

长期以来，对肖邦作品版本的考证是一个复杂的问题。其原因有二：一是肖邦的作品在世界各地拥有多个版本，即便是最值得信赖的手稿版，也同时拥有英国、法国、德国等多个版本，而各个版本又不尽相同，要确定哪个版本最为“准确”并非易事；二是肖邦本人经常对手稿进行修改，甚至上课时亦在其学生用谱上作大量改动。虽然这种带有“即兴”性质的创作符合他作为“钢琴诗人”的美誉，但却为后人试图接近肖邦的原来意图造成了困难。

肖邦作为一名近乎“家喻户晓”的作曲家和钢琴家，其作品被成千上万的演奏者广泛演奏和研究。这些演奏者和研究者对音乐的诠释亦千差万别，其中也不乏成功的诠释者，如科尔托，而更多的却是肆意的歪曲。19世纪后期曾有一种风潮：演奏者假借“二度创作”之名，随意改动原作者的作品，甚至走向以演绎者为中心的、更为“自我”的极端。肖邦的作品便是这种风潮的头号牺牲品。他的作品经常被一些不负责任的演奏家演绎得虚弱哀婉、无病呻吟，甚至过于阴柔，阳刚不足。事实上，肖邦并非一般意义上肤浅的“沙龙明星”，他的作品具有相当的深度和力度，其内在张力和逻辑性非泛泛之辈可比。二次大战之后兴起的另一种学院派风格，用过度理性的学术思维判断其作品，并任意对和声、分句、踏板进行修改。例如在著名的前奏曲（Op. 28）第4首中，有的“学院派”编订者把第2—3小节左手的降E改为升D，以为只有这样才能符合调性理论，即E和声小调的第七级音是升D，但事实上这样就大错特错了，因为肖邦是把左手大拇指弹奏的这一连串音当作一个级进下行的声部，即E—降E—D。虽然降E与升D在钢琴上弹奏的是相同的音，但对于一个敏感的演奏者来说，这是完全不同的音响效果和情感表达。肖邦对踏板的处理也相当细腻，他并非只把踏板当作扩大音量的工具，而是能在画布上渲染出各种渐变色的奇妙画笔，因此往往需要经过反复揣摩。例如在前奏曲（Op. 28）第16首中，一开始肖邦把这首作品的踏板处理成半小节一个踏板，后来可能认为不能完全表达本曲急风骤雨般的情绪，因此改为长踏板（在手稿影印件中可以清楚地看到这个删改过程），虽然不及原来的踏板用法那样清晰，但这种稍嫌浑浊的音响更具有“风雨欲来”的震撼力。可惜直至如今，多数演奏家仍然使用着已被肖邦本人废弃的踏板用法。这样的例子不胜枚举，如若放任这种风潮肆意发展，我们最终将失去肖邦和他伟大的音乐！因此，去伪存真，还肖邦作品以原貌，已成为越来越多演奏者和研究者的共识和追求。

波兰国家版《肖邦钢琴作品全集》的编订者艾凯尔是当今世界上最好的肖邦研究权威，这一点毫无疑问。我当年参加“肖邦国际钢琴比赛”时，他已经是非常知名的学者了。我们之间的交流和友情长达半世纪。我认为，艾凯尔是一位学识渊博、作风严谨、趣味独到的学者。他在肖邦研究领域的成就首先得益于他所拥有的一手资料。他掌握了几乎所有的版本，包括公开出版的作品集、手稿、学生用谱及一切有关于肖邦的文献。他用他那百科全书式的头脑，对各种线索进行推导和比较，加之他极富修养的个人趣味，才从中甄选出最符合肖邦原意的一种可能，并把其他的可能用文字和谱例加以注释，提供详尽的线索，使读者了解其来龙去脉，从不自作主张、强加于人。例如在前奏曲（Op. 28）第16首中，第20—21小节的踏板记号为艾凯尔所加，并不代表肖邦的原意，因此艾凯尔用括号加以区别，其严谨的治学态度可见一斑。所以，我认为艾凯尔编订的版本是最接近于肖邦原作风貌的。

版本学的研究在世界艺术领域的地位越来越重要。作为一个富有修养的演奏者更应区分版本的好坏，因为这可能直接影响到对音乐的理解和诠释。但我们并不能否认“二度创作”的重要性，而是要在正确的基础上赋予“纸面上的”音乐以生命，使其更趋完美。这一点希望能与广大读者共勉。目前，多数世界性的国际钢琴比赛，包括声名远扬的“肖邦国际钢琴比赛”均推荐采用艾凯尔编订的版本，而新近成立的“波兰肖邦学会”也旨在大力推广它。此时，上海音乐出版社与波兰近乎同步出版这套新版本，无疑为中国读者做了件好事、大事。我热切盼望波兰国家版《肖邦钢琴作品全集》尽快与广大读者见面，这必将是肖邦作品爱好者的饕餮盛宴！

2006年3月28日于上海

序 二

..... 李名强

1995 年李名强任第 13 届肖邦国际钢琴比赛评委时和艾凯尔教授合影

艾凯尔教授曾在 1983 年访问中国,并在北京中央音乐学院和上海音乐学院作有关肖邦的专题讲座。现在由他编订的波兰国家版《肖邦钢琴作品全集》在中国出版,使他对肖邦的研究成果受到更广泛和全面的传播,相信必将又一次引起音乐界的重视,我谨在此向你们郑重推荐!

上海音乐出版社和波兰音乐出版有限公司(Polskie Wydawnictwo Muzyczne - PWM)协议特许在中国出版由扬·艾凯尔教授(Jan Ekier 1913 -)编订的波兰国家版《肖邦钢琴作品全集》。艾凯尔教授还专门为中文版写了序。这是中国出版界和音乐界的一件大事。

一、肖邦作品研究的最新成果

肖邦的作品是所有钢琴文献中被演奏得最多,但也是被篡改得最严重的。六十年前,我们不懂什么是“原始版”(Urtext),那时也没有“原始版”,以为只要是肖邦,什么版本都是一样的。后来才知道不是那么一回事,各种版本之间差异很大,有的是编订者有意修改,以为可以“改进”肖邦的原作(如 Karl Klindworth 版[1830 - 1916]),大多数是以讹传讹,以为本应如此。上世纪中,波兰出版了帕德雷夫斯基(Ignacy Jan Paderewski 1860 - 1941)版,在很大程度上澄清了以前的谬误,并开创了一个崭新的肖邦演奏风格。这个版本在国际上流行了整整半个世纪以上,但是它并不是一个严格意义上的“原始版”,它用所谓“标准化”的办法,把肖邦手稿中许多细微的变化“标准化”(简单化)了。

艾凯尔教授是当今最权威的肖邦专家,他本人是钢琴家、教授,有几十年的演奏和教学经验,又是一位学识渊博、治学严谨的学者,由他主持编订一部新的肖邦“原始版”当然是再合适不过的。这部新的“原始版”被波兰政府定为“国家版”,以示其重要性和权威性。艾凯尔教授不但根据肖邦的手稿、各种初版,而且掌握了肖邦教学时在学生用谱上作的许多修改和更正,因此他这个版本中有许多新的发现,和我们习惯听到的大异其趣。相信这将成为又一个新的里程碑。

二、历史

艾凯尔教授的版本在上世纪 60 年代就开始编订,由波兰音乐出版有限公司(PWM)和维也纳原始版公司(Wiener Urtext)联合出版,PWM 出版波兰文版,在波兰国内发行,维也纳原始版公司出版外文版,在全球发行。到上世纪 80 年代,维也纳已出版叙事曲、即兴曲、夜曲和谐谑曲共四种。后来波兰决定把艾凯尔版定为国家版(Wydanie Narodowe • National Edition)并由

PWM 独家出版,不再和维也纳原始版合作。已出的四种维也纳版是艾凯尔版的初稿,我们可以把它称为“旧版”,而现在 PWM 的是“新版”。旧版和新版的差别主要有:

1. 旧版按作品标题分类,如“夜曲”包括肖邦以夜曲命名的 21 首作品;“即兴曲”包括肖邦以即兴曲命名的所有 4 首作品。

新版分成 A 和 B 两个系列。A 系列为由肖邦生前自己编订作品号(到作品 65 为止)的作品。B 系列为肖邦身后由他的学生编订出版的作品。因此 A 系列的“夜曲”只包括肖邦生前出版的由作品 9 之 1 到作品 62 之 2 的 18 首。“即兴曲”也只包括作品 29、36 和 51 三首,而其他身后出版的(夜曲三首和幻想即兴曲作品 66)都放在 B 系列里面。

2. 新版是在旧版的基础上加上新发现的材料经过修订的最新成果。如最引起争议的第四首叙事曲第 124 小节右手第 9 和第 11 个十六分音符的高音由传统的 *cb* 和 *fb* 改成 *CG* 和 *FG*,旧版的《版本注释》只是指出音符的不同,没有说明理由,而新版有更详细具体的解说,由此你可以自己去思考和抉择艾凯尔版的理由是否有道理。

3. 新版除了《版本注释》(Source Commentary),又增加了《演奏注释》(Performance Commentary),这是旧版所没有而对演奏非常有实用价值的。

PWM 的“新版”到现在为止只出版了 17 本,其余的据说将在两年内出齐。我们在此谨祝艾凯尔教授身体健康、工作顺利,其余的“新版”可以如期和读者见面。

三、善用“原始版”

有一种错误的观念认为“原始版”会束缚我们的手脚,使演奏千人一面缺乏个性。这是出于对“原始版”的误解和误用。事实正好相反:“原始版”为扩大我们的想象空间提供了一个最可靠的基础和出发点,让我们从一家之言走向百花齐放。当然,“原始版”本身也不是一成不变的。所有有生命力的东西都不可能是“绝对”的,而是进化的。把它绝对化,就是把它推上了死路。随着新资料的出现和科学研究的不断深入,“原始版”也会不断改进。不过这种改进不是随意的,而是有事实和科学根据的进步。

一个好的“原始版”除了可靠的乐谱文本(Text)外,一定还要有一份详尽的《版本注释》(Source Commentary)。这次上海音乐出版社决定除了组织一支以教授为首的强大专业力量把《版本注释》全文翻译成中文外,也把原来的英文本一起发表。这是一个十分重要的决定。我希望老师和同学们不仅要仔细研究乐谱文本,而且要认真阅读《版本注释》,学会全面地使用“原始版”。我也希望今后如果别的出版社申请用特许的办法在中国出版原始版,一定不要把《版本注释》删去。一个没有《版本注释》的所谓“原始版”只是一个不完整、“残障”的“原始版”。

四、一个榜样

最后,我要特别强调,这次上海音乐出版社和 PWM 协议,用特许(License)的办法引进波兰国家版《肖邦钢琴作品全集》是一个十分有远见、大胆而英明的决策,这个办法对双方都有好处。我们得到了最新、最好的版本,加快了我国钢琴演奏和教学与国际接轨的步伐,也为对方进入中国这个潜在的庞大市场铺了路,为在中国市场推广这个品牌创造了条件。我希望欧洲其他各大音乐出版社都能从中得到启发和教训,用这种合作的办法来推动一个持续双赢的局面。

引言·F小调钢琴协奏曲

“埃尔斯纳称赞我的这部协奏曲的‘柔板’是创新之作，但我对‘回旋曲’还不太满意，所以也就不愿听到有人评价这个乐章。”

“(1830年3月17日在华沙的国立大剧院演奏)《第一钢琴协奏曲》时，尽管大厅内座无虚席(……)，但依我看来却未能给听众带来深刻印象。第一乐章‘快板’能听懂的人不会多，虽然赢得几声叫好，但依我之见，是注定要让人感到迷惑的。这算什么话！干嘛自充行家。‘柔板’和‘回旋曲’发挥了最大的效果，传来的叫好声也更加发自内心。(……)那天晚上库尔平斯基在这首协奏曲中发现了新的美。埃尔斯纳为我的那架钢琴声音沉闷和低音部的琶音听不见而感到惋惜。”

“上路的行李箱已经买了，(……)谱子也做好封面了，手绢也已缝边，裤子也已做好。”

摘自肖邦写给在 Poturzyn 的 Tytus Woyciechowski 的几封信，写于 1829 年 10 月 20 日、1930 年 3 月 27 日和 10 月 5 日，华沙。

“(……)当我演奏我的两部协奏曲时，Klengel 说(……)他从未想到我能够成为这样的一个演奏行家。(……)他要我两部协奏曲的总谱(……)。”

“我真不知道这个星期是怎么度过的；在此之前，我们知道我们在哪里，我对眼前的音乐会没有一个实质性的进展。Quaestia? 我弹哪首协奏曲：F 小调还是 E 小调？”

摘自肖邦写给在华沙的家人的几封信，1830 年 11 月 21 日，布拉格；12 月 1 日，维也纳。

“(……)(你一定知道了我在这里的艺术家已经名声大噪)我将在 12 月 25 日举行一场音乐会。帕格尼尼著名的竞争对手 Baillot 将会演奏，还有著名的双簧管演奏家 Brodt，我将演奏《F 小调协奏曲》(……)”

摘自肖邦写给在 Poturzyn 的 Tytus Woyciechowski 的信，1831 年 12 月 12 日，巴黎。

“在 M. 肖邦音乐会的第二天，我毫不犹豫地决定出版他写下的所有作品。下面是所有权属于作者的作品目录，我将向作者购买：

- 1) 为钢琴而作的《E 小调协奏曲》，由乐队或是四重奏伴奏，由 M. 肖邦在他的音乐会上演奏”(……)
- 5) 为钢琴而作的《F 小调协奏曲》，由乐队或是四重奏伴奏。

摘自法国出版商 Aristide Farrenc 写给莱比锡的 Friedrich Kistner 的信，写于 1832 年 4 月 17 日，巴黎。

“形式迫使 M. Farrenc 放弃当下所有新的事情；因此他被迫取消已经决定的与 M. 肖邦的合同，我接办了这位作曲家的作品，并且想立即出版它们。(……)我考虑到将两部协奏曲立刻出版太多了(……)”

摘自巴黎出版商 Maurice Schlesinger 写给莱比锡的 Friedrich Kistner 的信，写于 1832 年 11 月 2 日，巴黎。

“你的来信中没有提到是否要把《第一钢琴协奏曲》刊印出来。我相信这首协奏曲肯定会受大家欢迎。”

摘自米科莱奇·肖邦给在巴黎的肖邦的信，1835 年 4 月 11 日，华沙。

about the Concerto in F minor and its score ...

"Elsner praised the Concerto's Adagio, saying that it is a novelty, but I do not want anyone's verdict on the Rondo since I am still not quite pleased with it."

*"The first concert [17 March 1830 at the National Theatre in Warsaw], even though the hall was full [...], did not make an impression, to my mind, on the masses. – The first Allegro, accessible only to the few, won some bravos, but it seems to me because they had to wonder what it was! – and to pose as connoisseurs! – The Adagio and Rondo produced the greatest effect, and more sincere shouts were heard [...].
– Kurpiński found new beauties in my concerto that evening, [...] and Elsner regretted that my pantaleon was dull and the bass arpeggios could not be heard."*

"The trunk for the road is already bought, [...] the scores bound, handkerchiefs hemmed, and trousers made."

From letters by F. Chopin to Tytus Woyciechowski in Poturzyn, Warsaw 20 October 1829, 27 March and 5 October 1830.

"Klengel, [...] when I played him my concertos, said that [...] he never expected I would be such a virtuoso. [...] He requested the score of my Concertos [...]."

"I really don't know how this week has flown by; before we knew where we were, and I am not a single firm step nearer the concert. Quaestia? which Concerto to play: in F or E?"

From letters by F. Chopin to his family in Warsaw, Prague 21 November and Vienna 1 December 1830.

"[...] (You must learn that I already have a huge name here among artists) I am giving a concert on 25 December. Baillot, that famous rival of Paganini's, is playing, Brodt, the famous oboist, I am giving my F minor [...]"

From a letter by F. Chopin to Tytus Woyciechowski in Poturzyn, Paris 12 December 1831.

"The day after M. Chopin's concert, without hesitation I offered to publish everything he had in his composer's portfolio. And here is a list of the works whose ownership I have purchased from the author:

- 1) Grand Concerto in E minor for pianoforte, accompanied by orchestra or quartet,
performed by M. Chopin in his concert*

[...]

- 5) Grand Concerto in F minor for pianoforte, accompanied by orchestra or quartet."*

From a letter by the French publisher Aristide Farrenc to Friedrich Kistner in Leipzig, Paris 17 April 1832.

"The situation forces M. Farrenc to abandon for the present all new undertakings; he was therefore obliged to annul the contract concluded with M. Chopin, and I took over the works composed by the same and intend to publish them soon. [...] I considered the publication of two Concertos at once as too much [...]."

From a letter by the Paris publisher Maurice Schlesinger to Friedrich Kistner in Leipzig, Paris 2 November 1832.

"You have not written yet whether [...] you will have the first [Concerto] printed; I believe that this one will certainly be well liked."

From a letter by Mikołaj Chopin to F. Chopin in Paris, Warsaw 11 April 1835.

The musical score is arranged in two systems. The first system contains the woodwind and brass sections: Flute I and II, Oboe I and II, Clarinet I and II (in B-flat), Bassoon I and II, Cor Anglais I and II (in F), Trumpet I and II (in B-flat), Trombone, and Timpani. The second system contains the string section: Violin I and II, Viola, Violoncello, and Contrabass. The score begins at measure 22. The woodwinds and brass play melodic lines with various articulations and slurs. The strings provide a rhythmic and harmonic foundation. Dynamic markings include 'f' (forte) and 'a 2' (second ending). The key signature is two flats, and the time signature is 4/4.

弗雷德里克·肖邦
F 小调钢琴协奏曲 Op. 21
总谱·音乐会版

《版本注释》(精简本)

《演奏注释》

FRYDERYK CHOPIN
CONCERTO in F minor Op. 21
concert score

Source Commentary (abridged)

Performance Commentary

弗雷德里克·肖邦钢琴协奏曲版本编订总纲

编订肖邦钢琴协奏曲的总谱可以说是最具挑战的编辑工作之一。这主要是因为其中存在两大困难:

—权威性底本的缺失,导致乐谱文本无法完整、准确地传承下来。

—在为协奏曲配器过程中的各个阶段,都有他人不同程度地参与进来。

现存的底本只包括肖邦早期的协奏曲(Op. 2、13 和 14)。通过研究,我们也曾希望能找到一些手稿、信息或是可靠的原始乐谱版本。但是,除了《F 小调钢琴协奏曲》第一乐章中仅有的一个半小节长的草稿外,没有任何具有权威性的资料保存下来。而且根据肖邦在华沙和他后来在国外首次登台亮相时的情况,只能说明这些协奏曲在当时有钢琴缩编誊清稿和总谱誊清稿的存在。这个结论可以由肖邦的信件来证实(“乐谱已经捆扎好了”)^①。可是令人遗憾的是,这些誊清稿也没有保存下来。而且现在我们能掌握的最早的总谱版本——即《F 小调钢琴协奏曲》乐队部分的“半手稿版”和《E 小调钢琴协奏曲》的法国首版,虽然是在这些誊清稿的基础上编订的,但也不能算是完全可靠的版本。因为肖邦基本没有参与这些版本的修编工作。所以我们只能假设这些版本中的少数修订是由肖邦提出的。不过值得安慰的是,我们还可以用这两首钢琴协奏曲第二、三乐章的协奏部分钢琴缩编谱来补充底本的不足。这里包括 Fontana 基于《F 小调钢琴协奏曲》誊清稿编订的钢琴缩编谱的照像影印本,以及 Franchomme 根据《E 小调钢琴协奏曲》协奏部分的部分手稿而编订的乐队总谱和木管声部的钢琴缩编谱。

在那些宣称以首版为基础而编订的协奏曲总谱版本中,我们发现在配器上有很多与肖邦音乐理念不符的地方。尤其是在将这些乐队总谱与已证明由肖邦亲自编订的双钢琴缩编版,以及钢琴独奏部分进行比较后,这些问题就显得更加突出了。它们主要集中在以下几个方面:

—乐队部分在演奏较强力度的乐段时,其音高主要集中在中音区,但这样演奏出来的实际音响效果却破坏了旋律声部的流畅性。

—将低音声部的音高降低,或是用大提琴和低音提琴两个声部同时演奏。这种配器编排其实违背了肖邦对“音响布局”(sound field)的理念。

—将由一组乐器演奏的乐句结束与另一组乐器演奏的新乐句开始相重叠。尽管这种“绞接”是浪漫时期音乐中特

有的写作方法,但根据肖邦的钢琴缩编谱,这样的做法就值得怀疑了。因为肖邦在一些新乐句的开始,会标明乐器的名称,或是一个新的力度,或是表情记号(如小提琴,柔美地)。因此,我们认为肖邦更倾向将各个乐器声部处于一种并置的地位。参见《F 小调钢琴协奏曲》第二乐章和《E 小调钢琴协奏曲》第三乐章中的乐队开幕全奏。

—在弦乐声部中过多地使用震音演奏。

—将每一个相邻的同音高音符都作同音连线处理。

—弦乐声部的音符时值都过长(在《F 小调钢琴协奏曲》的半手稿版中,我们可以看到一些肖邦的亲笔修正。比如在第一乐章的第 104、137、247-248、294 小节,以及第二乐章的第 79-80 小节中,肖邦用标记或是休止符将音符时值缩短)。

—在与具有权威性的钢琴独奏声部进行比较后,发现在和声、力度记号和运音法标记上有很多矛盾之处。

—运音法标记的使用前后不一致。

以上这些问题使我们得出了一个结论:可能有其他人参与了这些乐谱的编订工作。而且通过对当时历史环境的研究,也为我们揭示了早在华沙时期,这些参与者就已经在协奏曲乐谱形成过程中起作用了。

根据肖邦的信件,学者们推断肖邦大概花了一年的时间来创作这两首钢琴协奏曲,并完成了公演时所必需的乐队总谱和分谱。而且在此期间,肖邦还创作了其他体裁的作品,并在艺术沙龙中参加自己或其他作曲家创作的艺术歌曲及室内乐作品的排练和演出。同时,他还到了很多地方旅行(如 Strzyżewo、Antonin、Poturzyn)。如果大致回顾一下肖邦在这期间的经历,我们不禁要问:“他是如何在一年中完成这一切的?”毕竟,创作协奏曲这种大型音乐作品,对于肖邦来说并不是轻车熟路。而且,这两首协奏曲的修改、校对工作也需要花费大量的时间(“我不想听到任何人对《F 小调钢琴协奏曲》中回旋曲所进行的评价,因为我自己都还对它非常不满意”^②)。同时,肖邦也不大精通配器法的应用,这里包括移调、乐队全奏时各声部音响比例的控制等方面。这些事实都可以让我们得出一个简单的结论:一定有人帮助过肖邦。肖邦一定会到 Elsner 班里寻求更擅于此道的同僚来帮助自己。关于这个结论,可以由一些出现在肖邦信件里的名字来证实。“Linowski 抄写得很快,但《E 小调钢琴协奏曲》的回旋曲才刚刚开始。”^③不过在对比了日期后,学者们认为这里被抄写的可能只是分谱。同时,在 F. Hoesick 的书中还提

① 肖邦给 Poturzyn 的 T. Wojciechowski 的信(华沙,1930 年 10 月 5 日)。所有引文来源于《弗雷德里克·肖邦的通信》,B. E. Sydow 编著(华沙,1955)。

② 肖邦给 Poturzyn 的 T. Wojciechowski 的信(华沙,1929 年 10 月 20 日)。

③ 肖邦给 Poturzyn 的 T. Wojciechowski 的信(华沙,1930 年 8 月 31 日)。

到了一个不太确定但有趣的细节：“肖邦让 Ignacy Dobrzyński 来为两首协奏曲进行配器。这两份乐谱现在都已经遗失了。我为 Adam Műchheimer 提供的这一细节深表感激。”^①而且仍然在这本书中，F. Hoesick 还进一步引用了 Műchheimer 的话：“Ignacy Dobrzyński 晚年时告诉我，他曾在肖邦在世时，分别为两首协奏曲的第一乐章进行了配器。”^②不过关于这个事件，学者们再也没有找到其他的证据来证实其真实性。

而关于这两首协奏曲的创作进度，从书信中也透露出作曲家一直处于一种匆忙的状态中。当肖邦离开了 Radziwiłłs 位于 Antonin 的府邸后，他在信中写道：“我的《F 小调钢琴协奏曲》还没有完成。我迫不及待地想要写完它的终曲乐章。为此，我离开了这片乐土。”^③而三个月后，信中就提到了《E 小调钢琴协奏曲》：“（……）工作非常紧急，我必须加快进度。”^④

根据上文提到的情况，我们有理由相信很有可能有其他人士参与了协奏曲初稿的创作。尽管由于证据的匮乏，我们很难确定这些人参与了作品的哪些部分，以及他们所涉及的程度。但是无论如何，关于对“肖邦是否亲自完成了这两首协奏曲的初稿”的质疑，是非常有根据的。

同时，在协奏曲出版前为其进行配器的时候，也可能发生了很多的变化（比如对低音提琴声部和中提琴声部的修改和扩展，对木管声部的大量补充等）。当我们将众多乐队版本与 Fontana 和 Franchomme 的钢琴缩编谱进行比较后，就会发现很多这样类型的变化。而且几乎可以肯定的是，这些改变并非出自肖邦之手，而且也不大符合肖邦的音乐风格。

因此，虽然我们可以肯定确实有人参与了乐谱的形成过程，但是因为底本的不完整，使得我们不可能对这个事实进行详细的论证。所以，我们不能确定这个事实发生的具体时间，以及参与者对乐谱编订所产生的具体影响。

* * *

这两首钢琴协奏曲的总谱和它的钢琴缩编谱、乐队分谱都由同一出版商发行出版：《F 小调钢琴协奏曲》由莱比锡的 Breitkopf & Härtel 出版社出版（分别有 1865-1866 和 1879

两个版本），而《E 小调钢琴协奏曲》首先由莱比锡的 F. Kistner 公司出版（也分别有 1866 年和 1875 年两个版本），后来于 1880 年又被 Breitkopf & Härtel 出版社出版。这个版本在 Kistner 版的基础上，修订了很多演奏标记的错误，而且这些修改基本没有破坏音乐的原貌。从此之后，这两首协奏曲的大部分版本就都将以上版本作为底本来进行编订了。不过它们的编订目的却各不相同，有的忠于原貌，有的根据个人理解进行了大量修改。不过，当今的学者和音乐家都公认最后由 Breitkopf & Härtel 出版社出版的版本为“原版”。

150 年以来，这些出现在 19 世纪的乐谱版本反映了各时期音乐家对肖邦钢琴协奏曲协奏部分的理解，包括各时期演奏习惯，以及当时观众的音乐口味。

早在《E 小调协奏曲》第一乐章在巴黎第一次由乐队协奏公演时（1832 年 5 月 20 日，尽管肖邦同年 2 月已经成功地演出了这首协奏曲，但那次只是一次沙龙性的演出，而且是由一个五重奏组协奏），独奏和协奏部分之间音响比例的失衡，就引起了大家的注意。Le Temps 日报的评论家写道：“《E 小调钢琴协奏曲》第一乐章在这次私人音乐会中显得十分与众不同。这一定是因为（……）协奏部分的厚重音响（……）”。^⑤几天后，F. -J. Fétis 也表达了相似的观点：“这次的演出并没有获得极好的效果。这个结果毫无疑问是因为密集、浓厚的配器而造成的（……）”。^⑥

另外，可能还有两个人物的观点影响了学术界对肖邦钢琴协奏曲中协奏部分的评价：H. 柏辽兹和 F. Niecks。前者是浪漫主义时期著名的交响乐作曲家、《配器法》的作者。后者是最早撰写肖邦传记（1888 年）的作家之一。他的著作对研究肖邦音乐极具价值。柏辽兹曾在听到肖邦与乐队演奏的《E 小调钢琴协奏曲》第二乐章后，给予了热情洋溢的评价。^⑦可是，他在后来的一篇著名的评论中写道：“在肖邦所有的作品中，一切迷人的魅力都集中在了钢琴部分。而他协奏曲中的管弦乐部分则仅仅是个面无表情、可有可无的伴奏。”^⑧同时，Niecks 也写道：“（……）当肖邦写到除钢琴作品以外的音乐时，他那别出心裁的创造力就消失殆尽了”。^⑨

而且，很多波兰籍音乐家也对肖邦协奏曲的乐队部分持保

① F. Hoesick 著：《肖邦的一生和他的作品》（华沙，1967），卷一，第 360 页。

② 同上。

③ 肖邦给 Poturzyn 的 Tytus Woyciechowski 的信（华沙，1830 年 1 月 14 日）。

④ 肖邦给 Poturzyn 的 Tytus Woyciechowski 的信（华沙，1830 年 4 月 17 日）。

⑤ Le Temps, 1832 年 5 月 22 日。

⑥ Revue Musicale, 1832 年 5 月 26 日。

⑦ 埃克托·柏辽兹：La Rénovateur, 3(IV), 1835 年 1 月 5 日：“（……）这部令人着迷的作品，其不可抗拒的吸引力在于结合了最为深刻的宗教思想，将听者沉浸于一种与众不同的欢乐情绪中——平静、狂喜（……）它是如此简单又具有如此新鲜的想象力，当最后一个音符落定，如珍珠投进金色花瓶，陷入沉思的观众依然在倾听，没有掌声，一片沉寂，仿佛我们在黄昏时分凝视着光线逐渐暗弱，静立于黑暗之中，目送晚霞归于地平线之下。”

⑧ 柏辽兹著：《回忆录》（巴黎，1969），卷二，第 275 页。

⑨ F. Niecks 著：《肖邦其人其事》（伦敦，1888），卷一，第 206 页。

留意见。就像 W. Żeleński 说的:“我们都不大满意协奏曲的乐队部分。因为钢琴独奏部分是那么美妙且富有色彩。而乐队部分却完全没有在音乐上给予钢琴充分的支持。这样不仅没有加强乐曲对我们的吸引力,反而还破坏了音乐的魅力。”^①总之,鲜有研究者对协奏曲的乐队部分报以较高的评价。

因此,所有的这些看法都为肖邦打上了一个烙印,那就是肖邦是一个具有“钢琴思维”的天才,却不具备“乐队思维”的技巧。

不过大家忽视了一个事实,就是这些从乐谱中反映出的缺陷是否都应该由肖邦来承担责任。因此就有学者提出了相反意见。他们认为这些缺陷可能是由历史的原因而造成的,是由评论者以个人的乐队思维标准推断出来的,比如:以浪漫主义时期交响乐发展巅峰时的标准来判断。

同时,还有一些其他的观点也许可以证明肖邦并非没有乐队思维。首先是对肖邦是否按照“乐队思维”来创作协奏曲的怀疑。曾经有人提及 J. S. Bach 的配器法时说:“他不是编配乐器,而是在分配音管。”换句话说,就是巴赫是按照管风琴式的配器思维来写作的。当然,也许这个观点过于概念化,不过我们可以在肖邦的作品中找到很多这样的例子。而且,从海顿、莫扎特,以及贝多芬的早期作品中,我们也可以看到作曲家很多重奏式配器思维的痕迹。那么,我们就来看看是否有证据支持这种观点。

1842 年,当肖邦旅居巴黎时,他在自己家客厅里为年仅 12 岁的天才学生 Carl Filtsch 组织了一场独奏音乐会。肖邦为他挑选了《E 小调钢琴协奏曲》的第一乐章作为曲目之一。而另一个学生 W. von Lenz 是这样讲述的:“当大师最终允许 Filtsch 演奏整个作品时(……),他说:‘你已经把这个乐章准备得非常充分了,让我们来演奏它吧。我会为你协奏’。(……)于是,大师以自己无与伦比的钢琴协奏完美表达了这首乐曲构思精确、富于变化的配器效果。他弹得如此发自内心。我从来没有听到过比第一乐队全奏更完美的演奏了(……)”。^②除此之外,肖邦的另一个学生 C. O'Méara-Dubois 也有一段对肖邦弹协奏的描述:“肖邦常在自己上课房间的钢琴旁放一架小型钢琴。从胡梅尔到贝多芬,无论任何一首协奏曲,他的协奏总是精妙无比”。^③

这一系列目击者的描述,可以有力地证明肖邦是一个钢琴式配器思维的作曲家。同时也反驳了柏辽兹认为“肖邦协奏曲的管弦乐部分仅仅是个面无表情、可有可无的伴奏”的

观点。那么,这些最好的钢琴式配器思维都体现在哪里了呢?答案是:由肖邦写作的协奏曲钢琴缩编谱。

对肖邦缺乏管弦乐作品写作能力的成见之深,可能在音乐历史长河中再也找不到第二例了。这也导致 19 世纪晚期到 20 世纪中叶,出现了很多肖邦钢琴协奏曲的改编版。这些改编版的作者都希望以此来呈现自己心目中“完美的”协奏部分。其中比较重要的有:Klindworth、Münchheimer、Balakirev、Tausig、Burmeister(I. J. Paderewski 演奏《F 小调钢琴协奏曲》时曾用了这个版本)、Cortot、Reichwein 和 Fitelberg。这些改编者通过加强乐队音响和张力,来缩小乐队与钢琴在音乐上的差距。为此,有些改编版甚至使用了三个长号,但这样的做法却导致必须改编钢琴声部的音乐织体来与乐队抗衡。历史上总会出现这样的错误,因为这些改编者生活在远远晚于肖邦的年代,所以他们根据自己当时的音乐审美标准赋予了乐队如此厚重的音响。不过后来这些改编版被毫不犹豫地淘汰了。至于如何解决肖邦协奏曲中钢琴与乐队的不平衡问题,后人也还将继续努力探索下去。

* * *

从 20 世纪中叶起,对于肖邦协奏曲协奏部分的关注又回到了研究作品本身的范畴。以音乐学家 A. Fraćzkiewicz 和 G. Abraham 为代表的一些学者开始致力于恢复原有的配器版本。他们认为肖邦在创作这些协奏曲之前,并不熟悉莫扎特和贝多芬的协奏曲。他的协奏曲创作主要是受了 Hummel、Moscheles、Ries 和 Field 协奏曲中华丽风格的影响(肖邦还演奏过 Gyrovetz 和 Kalkbrenner 的协奏曲)。同时,学者们也认为肖邦并没有从他的老师——Józef Elsner 那里学到很多配器方面的知识。^④“肖邦的配器非常与众不同,其才能远远在他的波兰前辈以及 Field、Hummel 等人之上。与他们相比,肖邦的配器除了全奏部分显得有些厚重外,其他的部分总是具有丰富的色彩,充满了精妙、诗意的想象力(……)”。^⑤

另外,还有一些事实值得我们关注。首先,肖邦还在华沙居住的期间,这些协奏曲鲜有按照乐队的真正编制来演奏。而大多在私人沙龙中用重奏组来担任协奏。其次,肖邦在大部分排练的时候,也没有使用完整的乐队编制。他在给朋友的信中写道^⑥:“我和四重奏组排练了《E 小调钢琴协奏曲》(……)我下周会写信告诉你和乐队一起演奏的效果(……)明天我希望能和四重奏组再合一次”。四天后,肖邦写道:“今天我和乐队合作了《E 小调协奏曲》,不过编制中没

⑥ 肖邦给 Poturzyn 的 Tytus Woyciechowski 的信(华沙,1830 年 9 月 18 日)。

有小号和定音鼓”。^①由此,可以看出肖邦和乐队排练的机会非常少。最后,肖邦不仅从来没有以听众的身份听过其他人和乐队演奏这些协奏曲,也没有听到这些协奏曲在音乐厅中演奏的效果。所以,他不可能检查各个乐器声部之间是否真的保持了音响的平衡。

同时,关于 Niecks 的“肖邦的想象力只局限在钢琴一种乐器”的这个观点,我们通过研究肖邦的作品和信件,也可以举出很多例子来证明这个说法是不成立的。事实上,肖邦从幼年时就表现出了对其他乐器的兴趣。当他在 Szafarnia (1824 年)的时候,不仅演奏了“巴赛拉”(basetla,一种类似大提琴的民间乐器),还在《A 小调玛祖卡》(Op. 7 no. 2)的初稿中模仿了一种传统民间风笛(可能是“都迪”)。在演奏管风琴的同时,肖邦还试图发明一种新的风鸣潘塔莱翁琴,并为之创作了两首小品(乐谱已遗失)。他非常钦佩帕格尼尼和捷克小提琴家 Josef Slavik 的演奏,并且曾希望为后者创作一首贝多芬主题变奏曲。在给 Joseph Merck 的信中,肖邦写道:“他是第一个我发自内心欣赏的大提琴家”。^②而且,肖邦对步号的演奏技巧和音色效果也表现出很大的兴趣。他还经常在通信中发表自己对当时其他作曲家作品的看法:“《奥里伯爵》(罗西尼创作的一部歌剧)是一部使人赏心悦目的作品,特别是他的配器和合唱部分”。^③

而肖邦的这些兴趣也反映在他自己这一时期的管弦乐和室内乐作品中。肖邦在管弦乐作品中使用木管充当独奏乐器的做法,充分证明了他对乐器音色和乐器表现力的掌控能力。以三重奏 Op. 8 为例^④,肖邦曾在信中提到要用中提琴替代小提琴。同时,他在另一封信中还讨论了曲式结构和弱音器的功能,而信中内容显示,弱音器在当时还是一项新的发明。^⑤肖邦特别强调了在《E 小调钢琴协奏曲》中使用弱音器的必要性(他在给朋友的信中写道:“……没有弱音器的柔板乐章就是失败的乐章”^⑥)。而且肖邦还大胆使用当时不常见的乐器和各种演奏效果(在《F 小调钢琴协奏曲》中运用 col legno 和 cor de signal)。可以毫不夸张地说,《F 小调钢琴协奏曲》广板中的宣叙调可以说是钢琴协奏曲史上最优美的管弦乐篇章之一。而更巧合的是,肖邦最后出版的作品也是一首钢琴与大提琴协奏曲。

行文至此,我们已经列举了历史上对肖邦评价中的很多

矛盾之处。例如肖邦是否具有很好的交响乐配器思维;除了钢琴作品以外,肖邦是否能根据其他乐器的特点进行创作以及肖邦真正的音乐审美倾向。

根据肖邦对待自己管弦乐的态度,亨乐版肖邦作品全集的编订者 E. Zimmermann 就一直强调在肖邦乐谱的形成过程中,因为有其他人的参与而造成了很多问题。他根据权威性手稿已经遗失这一事实,提出了一个“惊人”的结论:“我认为这是个奇特的现象,就是在这些作品问世 150 年后的今天,当我们听到这些协奏曲时,我们都没有任何立场,来确定协奏曲乐队部分中的某一个音符是否真正出自肖邦之手”^⑦(不过这与肖邦亲笔在钢琴缩编谱前言中写的内容有所矛盾)。Zimmermann 还留下了一系列未解的问题:“肖邦是否写下了整个作品的钢琴缩编谱(包括乐队部分)?是否委托其他人(但还不能确定身份)在钢琴缩编谱的基础上进行配器?又或者,是否只是根据一些草稿、大纲,甚至是肖邦已写好的一种配器方式(……)?”^⑧而对于现存的印刷版本,Zimmermann 写道:“从上世纪(19 世纪)中叶起,在乐谱出版流程中出现了一些变化。在此之前,作曲家本人一直会参与乐谱初版的出版编订工作。但从这个时期开始,作曲家逐渐将这个工作完全交给了其他人。而今,这些版本编订引发的问题逐渐被发现。(……)而所有的乐谱材料也都开始被重新评估、调整和编订”。^⑨

* * *

波兰国家版编订组的目标不是来评判肖邦是否具有作为一名优秀管弦乐作曲家的能力,而且我们始终充分肯定肖邦在协奏曲中对管弦乐部分的运用天分。不过肖邦在这方面的天才被后来的一些非人为因素所妨碍了:例如肖邦受教育过程的间断、没有遇到更有才能的指引者以及当时缺乏像今天这样严谨的编订原则。

至于我们编订波兰国家版的目的,就是在尊重肖邦初衷的基础上,尽可能还原一个权威性的版本。同时按照当时的演奏习惯,为每个标记进行准确的判断和标注,以重现当时音乐的效果。

* * *

为此,我们主要采用两类乐谱作为编订乐队版的底本:第一类乐谱中的钢琴独奏部分是由肖邦确认了的,但是其乐

① 肖邦给 Poturzyn 的 Tytus Woyciechowski 的信(华沙,1830 年 9 月 22 日)。

② 肖邦给华沙的家人的信(维也纳,1831 年 5 月 28 日)。

③ 肖邦给 Poturzyn 的 Tytus Woyciechowski 的信(华沙,1830 年 4 月 10 日)。

④ 肖邦给 Poturzyn 的 Tytus Woyciechowski 的信(华沙,1830 年 8 月 31 日)。

⑤ 肖邦给 Poturzyn 的 Tytus Woyciechowski 的信(华沙,1830 年 5 月 15 日),见最后一个脚注。

⑥ 肖邦给 Poturzyn 的 Tytus Woyciechowski 的信(华沙,1830 年 9 月 22 日)。

⑦ E. Zimmermann 著:《肖邦和他的管弦乐作品》,收录于《肖邦研究》(华沙,1990),第 3 期,第 175 页。

⑧ 同上,第 177 页。

⑨ 同上,第 182 页。

队协奏部分的权威性并不可靠,因为肖邦并没有直接参与他们的编订工作;第二类乐谱则是编者认为比较接近肖邦的原意,并且具有权威性的材料,尽管其中有些内容只是间接地关系到乐队部分。以上选择底本的原则,早在20世纪70年代波兰国家版编订委员会开始这项工作之初就已经确认了。因为我们认为这两类原始材料可以解决所有与协奏部分相关的编订问题。为了更加清晰地区分这两类材料,可以将它们进一步解释为:“音乐会版”——使乐谱中的信息尽一切可能接近肖邦的乐队创作思维,并适合在音乐会演出时使用;“历史版”——根据那些经过肖邦认可的材料编订,但同时也包含了一系列被其他人修改过的信息。对于这两种类型原始材料的信息来源和编订方法,我们都要仔细地甄别。

而这次波兰国家版推出的也是为音乐会演出所适用的“音乐会版”。关于这一点,我们还会在下文中进一步讨论。同时,我们会力图最全面地考量现存的底本,特别是协奏曲的钢琴缩编谱。

在开始讨论本次“音乐会版”的编订过程之前,我们还要明确一个事实:那就是无论是乐谱文本信息的含义,还是乐器的演奏性能,在这一百多年间已经发生了很大的变化。

这些变化导致乐队协奏部分产生了不同的音乐效果、音响比例。同时,乐器的变革也带来了新的演奏技巧。例如:在肖邦的时代,长笛是一个具有特殊音效、容易辨别的乐器。但是在现在的管弦乐队中,特别是在 f 力度的全奏乐段和需要凌驾于弦乐声部之上的乐段中,长笛的声音则时常被掩盖了(如《E小调钢琴协奏曲》第一乐章第99-103小节和第三乐章的第111小节)。而在当时很少使用的长号,其作用主要是加强低音声部的音量。可是在今天听起来,就显得过于尖锐了。同时,有很多肖邦在钢琴缩编谱中特别强调的地方,在一些早期的总谱中却被休止符所替代。这种情况在我们编者看来是匪夷所思的。而对于当时的圆号来说,有很多无法吹奏的音高(如《F小调钢琴协奏曲》第一乐章的第262小节)。但是如果用现在的按键圆号来演奏,则完全没有问题。当然也有相反的情况。肖邦时期使用的是E调小号,其最高音对现在使用的降B调小号来说是无法演奏的(如《E小调钢琴协奏曲》第三乐章的第107小节)。

我们编订这一“音乐会版”,首先采用的底本是肖邦亲笔修订的钢琴缩编谱和由他亲自修订的缩编谱初版。根据这些版本我们可以确定每个声部进入的准确位置。而第二采用的底本则是Fontana和Franchomme编订的钢琴缩编谱。通过它们和后世版本的比较,我们可以分辨出哪些地方是受

到后来出版者的影响而被修改的。

当然,仅仅依靠这些版本提供的信息还是远远不够的(例如Fontana和Franchomme的版本中都缺少两首钢琴协奏曲的第一乐章,而且没有任何版本可以提供具有权威性的完整配器)。因此,我们必须还要对协奏部分的内在的音乐特征进行更深入、仔细的探究。

让我们来看看以下三个问题:

——如果肖邦请其他人为协奏曲进行配器,那么肖邦首先会将哪些部分委托于他人?

——这其中哪些部分是最值得保留的?

——为了更加符合肖邦时期的乐队音响特点,哪些部分需要进行修改?

对第一个问题的解答是:肖邦最有可能将乐队全奏部分交与他人进行配器,因为这是最耗费时间的工作(其中包括确定各声部乐器的数量、移调,和对各声部纵向音量比例的控制等)。其次,肖邦可能会为自己的助手提供一个五重奏形式的和声连接作为配器的参照,这样就不需要配器者有太多的创新。

第二个问题的解答则与第一问题的解答有着很大的关联性。因为对协奏曲协奏部分最尖锐、最普遍的批评就集中在协奏曲的全奏部分。“……)在全奏部分中,(……)肖邦的配器显得十分平庸(……)。这两首协奏曲开始的齐奏部分毫无想象力,是肖邦作品中最影响他作为一个管弦乐作曲家声誉的篇章。”^①我们还读到:“肖邦对配器的运用并不是很在行,因为他的配器不能让各个乐器发挥其特有的爆发力,同时还缺乏音乐交响性。肖邦还经常用持续音来形成一种四重奏的效果。但这种做法显得很没有创意”。^②这些评论无论在过去还是现在,都不是孤立的。而且即使是现在看来,这些评论毫无疑问也是客观的。

然而在木管声部的旋律和对位写作上,肖邦从色彩、音区和音乐性格把握等方面,毫无疑问地体现出了自己极度的敏感和天赋。他在自己的钢琴缩编谱中都做了详细的标注。在此,让我们再次引用G. Abraham的观点:“我们可以清晰地看到,肖邦使木管乐器具有了旁人无法比拟的诗意。”^③而且我们也不要忘记在《E小调钢琴协奏曲》第二乐章的结束部分,在小提琴演奏旋律乐句的同时,钢琴是如何进行着精妙的伴奏。

通过以上研究,我们可以对肖邦协奏曲管弦乐部分中信息的可信度做一个排序:

——最可信:肖邦在钢琴缩编谱中所有关于配器方面的描

① G. Abraham 著:《肖邦和管弦乐》,收于第一届国际音乐学委员会编的《弗雷德里克·肖邦作品的纪念册》(华沙,1963),第86页。

② A. Münchheimer 引自 F. Hoesick 著:《肖邦的一生和他的作品》(华沙,1967),卷一,第360页。

③ G. Abraham 著:《肖邦和管弦乐》,第85页。

述,以及乐队中某个声部的独奏部分(旋律和对位)。

—其次可信:协奏部分的和声。

—第三可信:没有具体指示的乐队全奏部分。

尽管以上的分级原则并不具有绝对性,但却可以让我们有根据地对全奏部分或弦乐部分进行一些适当的修正。因为这些底本使我们确信这样的改动并没有违背作曲家的创作初衷。同时,这也让我们留意到乐队声部中的独奏部分,因此我们增加了演奏这些旋律的声部数量(特别是第一乐章的展开部),从而使这些旋律在演奏过程中能与现代钢琴的音量抗衡,并能被听众听到(这也是与演奏风格变革相协调的一个过程)。

为了最大程度体现肖邦的钢琴式配器思维,我们对一些值得怀疑的地方进行了修改。但是我们不希望这样的举动被认为是对肖邦作品的再一次“插手”,而是希望达到“还肖邦音乐以原貌”的初衷。

在本次“音乐会版”的编订过程中,有很多修订是关于改善音响效果方面的。其中最重要的,就是让厚重的全奏乐段更有明显的层次感。在协奏声部的高潮点与旋律声部相遇时,要减轻协奏声部的音量比重,以突出旋律声部。同时要让室内乐式的协奏声部具有更加清晰的纵向声部关系。其中一个例子就是将《E小调钢琴协奏曲》第二乐章的音响效果^①与肖邦和柏辽兹的描述相协调。另外,为了适应钢琴的声音特点,我们加强了由乐队演奏的旋律声部。

* * *

“历史版”的底本主要是那些最早的同源手写稿和印刷的乐队部分。比如《F小调钢琴协奏曲》的“半手稿版”和《E小调钢琴协奏曲》法国初版的乐队部分。

编订方法主要是以最可信的材料作为基础,进行有据可查的修订。但是这种简单的做法还是有所缺陷。因为这些

版本尽管声称是在肖邦的指导下出版的,但是其内容却只有一部分符合肖邦的想法。

“历史版”一直被认为是最具有权威性的版本,并在19世纪引发了一系列“历史版”的出现(大部分都由 Breitkopf & Härtel 出版社出版)。而且随着时间的推移,这些版本也逐渐融合了一些20世纪的演奏模式。那么至此,关于肖邦版本的争论也持续了近150年了。

总结

虽然两种类型的版本都以原始资料为基础,但每种版本编订的侧重点却是不同的。

“音乐会版”是一种最特殊的编订重建过程。编者通过对各种类型底本的研究,能获得对音乐更细致、更深层次的理解。当然编者也会特别研究具有权威性的底本,或是与之有直接关联的信息,使编订的版本更切合作曲家的创作意图。

这里要特别指出的是,此次“音乐会版”的编订目的较以前的版本有了明显的不同(与以前所有的版本目的都相反)——主要是让乐队协奏部分更加具有室内乐性,更加以细致的音色与钢琴声部相匹配。

“历史版”的编订更集中在凸现信息的原始性。但是其中仍然有一些由其他人编订的部分存在。

我们推测肖邦对这两种版本类型的态度可能是这样的:

—“音乐会版”的目的是为了体现肖邦希望被听众听到的效果。

—“历史版”的目的是为了体现肖邦允许被出版的信息。

扬·艾凯尔

^① 肖邦写给 Poturzyn 的 Tytus Woyciechowski 的信:“新协奏曲的柔板乐章是E大调的。它并非声势浩大,而是较为敏感、宁静和忧郁的气质,将人们带到无数的美好回忆之中。——它像是月光映衬下,美丽春天的倒影。这就是为什么我用上了弱音器的原因,就是在小提琴上加一种梳子状的弱音器,它架在琴弦上,能产生一种带有鼻音的、清亮银弦般的声音。”(华沙,1830年5月15日)

版本注释(精简本)

引言

以下的注释只涉及了钢琴协奏曲中的管弦乐部分(独奏部分注释在协奏曲双钢琴谱中阐述)。撰写《版本注释》的目的是为了进一步阐述乐谱编订的原则。尤其是那些因现存资料而引起争论的配器问题,我们会指出编者做出修改的地方,并说明为何如此编订的理由。而一些能轻易地从两种版本(“音乐会版”和“历史版”)中分辨出的修改,在以下注释中将不在细节上赘述了。

对于底本间的矛盾之处,我们将从历史的角度进行详细的分析。因为这些矛盾之处也是协奏曲的版本在其出版过程中出现重大变化的分水岭。在另册出版的《版本注释》中,我们将全面地阐明各个底本之间的关系和差异,同时也包括历史上在这些不同的底本基础上,应运而生的各种再版。

记号“→”表明诸底本与在其基础上的底本之间的关系。

F 小调协奏曲, Op. 21

底本

As 第一乐章的一个半小节的原始草稿(在《三重奏》, Op. 8 原始手稿的最后一页上,与其他一些毫不相关的草稿写在一起;华沙肖邦学会)。包括两架钢琴谱的第 225 小节的全部,以及其后的轮廓。

[SI] 总谱的未刊手稿,已遗失,至少相当大的部分是原始手稿(部分或所有的 *tutti* 和弦乐伴奏也许是由他人写下的),可能在 1830 年初完成于华沙。它曾用于公开演出(华沙,1830 年 3 月 17 和 22 日)。**[SI]** 与现存总谱的半原始手稿有出入。它最有可能被 Julian Fontana 用来编辑第二和第三乐章乐队部分的钢琴缩谱。

[AI] 独奏部分的手稿,已遗失,肖邦用这个版本在华沙与乐队一起演奏了这部作品(在那个时代,演奏音乐会作品是习以为常的事情,正如通过肖邦 1829 年 9 月

12 日给 T. Woyciechowski 的信证实的那样——他描述自己在维也纳演奏变奏曲 Op. 2 时的情景:苍白的,擦着口红的同伴来翻谱,那个人夸口说曾为 Moscheles、Hummel、Herz 翻谱……我坐下……在乐器旁……)。

[PI] 丢失的乐队部分,肖邦在华沙的音乐会上与乐队演奏过。

$\frac{1}{2}A$ 这部协奏曲总谱的半原始手稿(Narodowa 图书馆,华沙),由肖邦和一位身份不明的抄谱员合作完成,作为德国初版独奏部分和乐队部分的出版依据,时间可能是在 1835—1836 年。在以后(约 1860 年及其之后), $\frac{1}{2}A$ 还被同一出版社(Breitkopf & Härtel)用于编辑德国第 2 版的钢琴部分和两版总谱;一些增加的内容(如一些装饰的符号,甚至出现在独奏部分中)可能源于这个时期。

$\frac{1}{2}A = A + M^{\text{orch}}$

A 来自 $\frac{1}{2}A$ 的钢琴部分——一份肖邦的原始手稿,可能准备作为**[AI]**的出版依据。它包括独奏部分和增补的钢琴缩谱,用小字体印刷,是纯粹的乐队部分和一些乐器的经过句。这些部分包括很多肖邦规定的特定乐句的演奏乐器,这对于重建乐队部分有着最根本的重要意义。

同样由肖邦写下的是第一乐章的标题页和节拍器速度。在第二和第三乐章的一些钢琴缩谱的片段中,由肖邦写下的小字体音符很有可能是后来被抄谱员突出出来的*。

M^{orch} 来自 $\frac{1}{2}A$ 的乐队部分,由一位身份不明的抄谱员抄录,可能以**[SI]**为依据。肖邦在这里增改了不少,但并非所有修订皆出自于他(鉴别的依据是抄谱员的音符字体要小于肖邦)。有人指出,可能以**A**为基础重建的乐队部分中的短章残篇,特别是 *tutti* 部分,与 **M^{orch}** 版在很多方面都不同——正如人们今天所见——表明在乐队配器上有他人参与(见《编订总纲》,第 83 页)。

ReF 这部协奏曲第二和第三乐章乐队部分钢琴缩谱的手

* 关于阐明此步骤意图的假设,见扬·艾凯尔:《国家版校勘——四个通报》,载于《演奏肖邦:历史、理论和实践·第四届国际会议》(华沙,2005 年)。

- 稿(已遗失,影印本保存在 Archiwum Akt Nowych, 华沙),由 Julian Fontana 准备,最有可能是 1836 年之后。Fontana 完成这个缩谱所采用的最有可能是[SI],理由如下:
- 乐队部分一些和弦排列的精确复制,对于钢琴演奏来说毫无意义(如第二乐章第 24-25 小节和第 70-72 小节),这证明 Fontana 的缩谱来自一个包含全部乐队部分的总谱,并不是从一个现成的缩谱而来;
 - 没有那些出现在 $\frac{1}{2}A$ 和所有后来底本中的错误,以及乐队部分的进入(如第三乐章第 14 小节和第 260 小节),而且大量更多的差异排除了 $\frac{1}{2}A$ 和所有后来的底本是 ReF 出版依据的可能性;
 - 与肖邦在 A 中所作第三乐章 *tutti* 的缩谱之间仅有少量不同,对此最简单的解释就是 Fontana 抄写了与[SI]相同的这个缩谱的原始版本;保存在 ReF 中的一些版本样式在 A 中有明确的修订,更进一步证明了这种假设,因此 ReF 在时间上一定在前(第 53-54 小节的第 2 拍,ReF 是一个四分音符的八度 c^1-c^2 ,而在 A 中,肖邦将这两小节明确的八度都改为二分音符的 c^2)。
- ReF 中,力度、运音法和缓急法记号基本上都精确地写了出来,连线和延音线的记谱略微不够仔细。一些铅笔字的增补表明 ReF 曾被用于演出,无疑是 Fontana 本人。
- ReF 极有可能重建于[SI]之上,并且是在这部作品于 1830 年的首演和 1836 年的出版之间在配器上改变之后的重建。尽管这个底本不能被看成是全部可信,但毫无疑问,它在音乐文本的很多方面都最接近肖邦的本意。
- GE** 一架钢琴的德国初版, Breitkopf & Härtel(5654), 莱比锡, 1836 年 4 月, 以 A 为版本依据(比较这部协奏曲钢琴版的《版本注释》)。现存 GE 的各次印刷在封面价格和纯绘图方面的几个小细节上有所不同。以下这个版本附属于 GE:
- PGE** 乐队部分(相同的出版社和出版编号)极有可能是抄自于 M^{orch} , 并且以 M^{orch} 的版本依据进行编辑。在这个手写的版本依据和刊印出来的乐队部分中,临时记号和演奏记号都得到了修订, M^{orch} 中一些其他的错误也被修改。然而,大量的错误随之出现,没有任何迹象显示肖邦曾参与了 PGE 的出版工作。国家版的编辑团队并没有发现现存 PGE 各印次中有哪些不同。
- FE** 一架钢琴的法国初版, M. Schlesinger(M. S. 1940), 巴黎, 1836 年 7 月。现存有两个不同的印次:
- FE1** 第 1 次印刷, 以 GE 为依据, 由肖邦修订, 其中有大量音高、装饰音和其他方面的错误(一些错误是从 GE 复制而来)。
- FE2** FE 的第 2 次印刷(相同的出版社和出版编号), 于第 1 次印刷之后不久重版。在校对的最后一个校次中, 第三乐章乐队片段的缩谱有三处被改动, 极有可能是肖邦所为。这些改动应被视为作曲家有意地用在乐队部分。FE2 现存的各副本仅仅在封面的某些细节有所不同, 包括价格, 是由于 Schlesinger 的后继 Brandus 出版了不同印次。
- PFE** 附加于 FE 的乐队部分(相同的出版社和出版编号), 其中(有许多错误和少量修正)PGE 的音乐文本被重新制作。肖邦没有参与 PFE 的出版。国家版的编辑团队并没有发现现存 PFE 各印次中有哪些不同。
- EE** 这部协奏曲一架钢琴版本的英国初版, Wessel & Co (W & Co No 1642), 伦敦, 1836 年 5 月, 以 FE2 的一个副本为依据, 有几个当时已知的错误没有改正。这个版的附加部分是 PFE, 有 Wessel 的标志, 但是乐队部分非常不像是由英国出版商刊印的。
- S65** 这首协奏曲总谱的初版, Breitkopf & Härtel(10721), 莱比锡, 1865—1866 年, 与 PGE 相比较, 这个版本以 $\frac{1}{2}A$ 为基础。这一版本对这部协奏曲的音乐文本进行了全面的修订, 特别是在演奏记号方面, 尽管很多错误未得到修改。一个相当重要的、突出的错误出现在 S65 的定音鼓声部: 所有的 G(实际音响为 c)都被改成了 F, 完全错误地呈现了这个声部(这种记谱看起来没有移调; 然而, F 持续不断地出现在应该是 c 的位置上, c 出现在了应该是 F[f]的地方)。
- S79** 勃拉姆斯编辑的这部协奏曲的总谱, 为肖邦作品全集系列中的一部分, Breitkopf & Härtel(C XII 5), 莱比锡, 1879 年。与 $\frac{1}{2}A$ 相比较, 这个版本以 S65 为基础。基本音乐文本中出现的大部分错误在此版中都得到了改正, 尽管出现了一些新的错误。
- SS** =S65 和 S79。
- SSi** K. Sikorski 编辑的这部协奏曲的总谱, 肖邦作品全集系列中的一部分, Instytut Fryderyka Chopina & Polskie Wydawnictwo Muzyczne (PWM-3821), Warsaw-Kraków, 1960 年。这个版本以 S79 为基础, 在配器、和声、力度记号和运音法上有很多修订和修改。此版包括大量关于配器方面明智的解决办法, 特别是在铜管声部; 其中一些段落的重建处理得没有 $\frac{1}{2}A$ 那么机敏灵巧。

总谱的校勘原则

在有出入的地方我们采用了 $\frac{1}{2}$ A(在对 $\frac{1}{2}$ A中一些印刷错误进行修订之后,这个音乐文本被作为总谱的“历史版”出版于国家版系列中)。在一些值得怀疑是否充分符合肖邦本意的地方,我们以A(考虑到他后来在FE中做过修订)和ReF为依据进行了重建。由于最后三个底本——A、FE和ReF对于目前编辑此版具有重要意义,它们将被视为**基础底本**。

我们的改动包括以下步骤(比较《校勘原则》):

1. 加强了主题的旋律线条,并且(或者)减轻了被认为过重的伴奏部分的力度;
2. 在低音线条上恢复了与肖邦本意相符合的密度和音域,最重要的是更为节俭地使用低音提琴和长号;
3. 删除了一些不必要的、人为的由单个乐器或乐器组演奏的延长性乐句,它们削减了肖邦想要的乐队色彩;
4. 删除了一些弦乐声部中的震音,它们并未出现在肖邦的钢琴缩谱中,并且在音乐表述上显得不恰当;
5. 用重复音代替了连起来的音符,重复音是肖邦在钢琴作品中喜欢使用的;
6. 缩减了弦乐伴奏中持续时间过长的音符;
7. 考虑到现代乐器的发音能力,修改了 *tutti* 中圆号和小号声部;改动的目的在于获得更为和谐的和弦音响,并且填补在音乐上因自然乐器演奏困难或无法演奏而产生的不合理的休止;
8. 在短暂的间隔内使用强烈对比,从而使一些力度和力量减弱的乐句无法听到,从而破坏了音乐的自然流动——诸如这样的地方我们均增强了力度;
9. 删除了独奏钢琴部分和乐队伴奏之间不协调的和声;

在下面更为详尽的注释中,根据上面的分类,一些改动用加括号的数字表示。

此外,演奏记号也被修订:

—我们删除了多余的力度记号(如程式化地增加在上升和下降旋律上的短 — 和 —),并且降低了在基础底本中没有得到证实的极端的力度记号;

—我们调整了连线和其他一些演奏记号,力求获得一种谱面效果:一方面尽可能以诸底本,特别是基础底本为主,另一方面则便于现代钢琴家阅读。

在对有疑问的配器进行深入改动的情况时,我们对照了这两首协奏曲和较早音乐会作品的一些片段,它们在配器的真实性方面不存在疑问。这样,我们就遵循了最为谨慎的原则,仅修改了那些明显违背肖邦音乐思维的地方。

我们并未注明有时出现在弦乐声部倒置现象(最常见的为第二小提琴和中提琴的倒置)。

钢琴部分来自第31卷B VIb(两架钢琴谱)。我们省略了编辑所注的指法和记谱符号,它们对于独奏部分和乐队部

分之间的声音关联没多大影响(括号和小的变体)。

I. Maestoso

p. 11 第5-6、342和345-346小节。用 ff 或 f 演奏的成对和弦的连音,以及第1对和弦的第1个音符上面的重音,符合底本A。在第345-346小节中,我们删除了小提琴声部中三和弦的八度音,以尽可能保持连贯。

p. 12 第8小节,圆号。我们修改了这个声部(7)。

第8-19小节,低音提琴和长号。在第8小节的后半部分至第11小节之间,我们删除了低音提琴;在第13-18小节和第19小节的第1个八分音符上,我们修改了低音提琴声部,并且删除了长号声部(2)。第8小节第2拍 ab 音上低音提琴的结束毫无疑问是肖邦在A中所采用的(左手声部的第2拍是分开的,并且没有延长四分音符 Ab ;在最初一批版本中,这些细节被忽略)。可参见《E小调协奏曲》(Op. 11)第一乐章第154小节中相似的情况。

第10和12小节,双簧管和大管。A($\rightarrow$ FE)中忽略了这两小节结束处 f^2 演奏乐器的指示。由于这些音被排除在第9-10小节和第11-12小节有连线的乐句之外,可能是建议更换音色,因此,我们将这些音分配给双簧管来演奏,用大管演奏的低八度音予以加强。在钢琴缩谱中,肖邦并不总是很精确地指示出特定乐器的进入,例如《E小调协奏曲》(Op. 11)第一乐章第13-14小节和第17-18小节中木管乐器的进入(然而,相应的指示出现在这个乐章的展开部和再现部中)。

第13-16小节,长笛和单簧管。我们增补并修改了这两个声部(1)。

p. 13 第15小节,小提琴和第一双簧管。为了避免产生至 ab^3 局促的跳进,我们将第1个八分音符 f^2 从第一小提琴交由第二小提琴和第一双簧管演奏。

第16-19小节和第22小节,圆号。我们增补并修改了这个声部(7)。

第19小节,第一长笛和第一双簧管。我们将第7个八分音符从 $e^2(e^1)$ 改为 $g^2(g^1)$ (1)。

第20-25小节,小提琴和中提琴。我们删除了这些小节中第1个八分音符上的震音,以符合A中的运音法(附点)和连线(4)。

p. 14 第23-26小节,双簧管和圆号。我们增加了第一双簧管来增强旋律性,相应地修改了第二双簧管,并且增补了圆号声部(1)。

第27-30小节,长笛、双簧管、单簧管、小提琴和中提琴。我们用长笛和第二小提琴增强了旋律线条,修改了双簧管、单簧管和中提琴声部(1)。

圆号和小号。我们增补了这两个声部(7)。

长号、大提琴和低音提琴。我们根据 A 塑造了低音线条(2)。

p. 15 第 36 小节,第二圆号、大管、大提琴和低音提琴。我们根据 A 改变了节奏时值。

第 39-41 小节和第 44 小节,F 调第一圆号和第一大管。肖邦在 A 中第 38 小节的第 4 拍上标记了圆号进入。在 *M^{orch}* 中,从这个音调开始的旋律线条延续被第一大管和圆号分成两部分,我们不使用这一相当不自然的分隔。第 41 小节第 4 拍圆号声部 *c*² 的重复是根据 A 作出的。

p. 16 第 44 小节,第一小提琴。根据 A 的记谱,我们删除了第 4 拍上的 *eb*²。

第 44-48 小节,中提琴、大提琴和低音提琴。我们删除了中提琴和低音提琴声部中的一些片段,使其音响符合 A 的记谱(1, 2)。因为同样的原因,我们修改了第 45 小节低音提琴的演奏法。

第 45-48 小节,长笛、双簧管、单簧管和大管。我们将第二主题句的重复分配给弦乐器单独演奏(3)。

第 46 小节和第 48 小节,F 调第一圆号。根据 A 的记谱,我们删除了第 46 小节的 *bb*¹,并且将第 48 小节的 *f*² 降低了一个八度。

第 49 小节,长笛。在这一小节的开始处,我们增加了二分音符 *f*²(1)。

第一小提琴。我们删除了在 A 中没有标记出来的震音(4)。

第 49-51 小节,小号和长号。我们删除了这两个声部(1、2)。

第 49-50 小节,中提琴。我们修改了这个声部,以符合 A 的记谱。

第 50-51 小节,第一圆号。我们修改了这个声部(7)。

第 55 小节,F 调第一圆号。肖邦在 A 中明确标出圆号在第 2 拍上进入(与单簧管和大管一起),因此我们删除了这一小节开始处的四分音符 *bb*¹(3)。

第 56-57 小节,长笛、单簧管、大管、小提琴和中提琴。我们仅留下了这些肖邦在 A 中标记出来的乐器声部(3)。

第 58-59 小节,大提琴。根据 A 的记谱,我们更改了第 58 小节的第 4 个四分音符和第 59 小节的第 1 个八分音符。

p. 17 第 59-62 小节,长笛。我们加强了旋律线条(1)。

第 59-63 小节,低音提琴。我们将这个声部提高了一个八度(2)。

第 60 小节,中提琴。在这一小节的后半部分中,我们

删除了 *eb*¹,因不能确定其真实性(参见历史版的注释)。

第 61-63 小节,圆号。我们修改了这个声部(7)。

第 66 小节和第 69 小节,第一小提琴和中提琴。我们给出了与 A 相一致的节奏时值。

第 67-73 小节,中提琴。我们将这个声部降低了一个八度,以符合 A。

p. 19 第 97-100 小节和第 103-104 小节,大提琴和低音提琴。我们删除了低音提琴声部。为了保留低音线条的轮廓,还将第 98 小节大提琴声部中的第 4 个四分音符提高了一个八度(2)。

p. 20 第 110 小节,大提琴。我们调整了低音背景声部的节奏以便与包括独奏钢琴在内的其他声部相一致(6)。

第 111 小节,小提琴、中提琴和大提琴。我们删除了弦乐器长时值的和声背景(6)。

第 117-118 小节,第二小提琴。我们调整了节奏以适合独奏钢琴部分(9)。

第 118-119 小节和第 120-121 小节,大提琴。我们删除了连线(5)。

p. 23 第 161 小节,低音提琴。为了与类似的第 311 小节相一致,我们增加了 *Ab*。

p. 24 第 174-175 小节,低音提琴。我们增补了这个声部,以不削弱音乐不断增加的紧张度(钢琴声部为 *f*)。

p. 25 第 180-181 小节和第 183 小节,第二小提琴和中提琴。根据 A 的记谱,我们修改了第二小提琴声部(1)。我们也对中提琴声部第 180 小节的最后一个八分音符作了必要的修改。

第 181 小节和第 183 小节,第二大管、长号和低音提琴。我们修改了节奏使其符合 A。

第 183-184 小节和第 186-188 小节,小号。我们增补并修改了这个声部(7)。

第 184 小节,第二圆号。我们改动了第 4 个四分音符(7)。

第 185 小节,长笛。我们修改了节奏使其符合低音(与第 181 小节相似)。

p. 26 第 190-192 小节,第一双簧管。我们增补了这个声部,加强了旋律(1)。

第 190 小节和第 192-193 小节,小提琴。为了与 A 相符合,我们更改了第一小提琴第 190 小节的第 4 拍,以及第 192 小节的第 4 拍和第二小提琴第 193 小节的第 1 拍。

第 193-194 小节,第二小提琴和中提琴。我们保留了 A 中八分音符的连续进行(4)。

p. 27 第 196-197 小节,小提琴和中提琴。在第 196 小节的后半部分和第 197 小节的第 1 拍上,我们删除了 A 中没

有的震音(4)。

第 200 小节, F 调第一圆号。我们删除了 g^1 上的同音连线, 这大概是抄写的错误(5)。

低音提琴。我们根据 A 将这两个音符都移低了一个八度(2)。

第二小提琴。我们根据 A 修改了节奏。

第 201-203 小节, 第一单簧管。为了与 A 相一致, 我们删除了这个声部。在肖邦的缩谱中长笛声部的乐句没有八度成双, 这不但是为了钢琴演奏上的便利, 更是出于对声音的考虑:

—单簧管的旋律线条会干扰弦乐声部(参见第三乐章第 137-141 小节);

—在这里用八度会过早地显现独奏钢琴在第 205 小节中演奏八度乐句的效果。

第 201-234 小节, 长笛、双簧管、单簧管、大管和大提琴。术语 *espress.* 系由编者所加, 旨在用木管乐器来增强主题和对位乐句。可参见第 233-251 小节的标注。因相同的目的, 我们在第 225 和第 229 小节大提琴声部中增加了 *marcato*。

p. 28 第 203 小节, 中提琴。我们删除了独奏大管的第 2 个和第 3 个成对的四分音符(3)。

第 205 小节, 低音提琴。我们缩短了这个乐句的最后一个音符(2)。

第 212-217 小节, 低音提琴。我们删除了这个声部, 部分原因是由于参考了 A(第 213-214 小节中弦乐的和弦用小音符写在钢琴声部, 有一个 f^b , 并没有把 F^b 作为基础音)(2)。

p. 30 第 223-225 小节, 单簧管和大管。我们删除了这两个声部中无主旋律的结束, 它们重复了其他乐器声部的音调(3)。

第 225 小节, 低音提琴。我们将四分音符缩减为一个八分音符, 这样的节奏时值与 As 相同(F)。

第 227-228 小节和第 231-232 小节, 小提琴、中提琴和大提琴。我们缩短了和弦的时值(3、6)。这一修改极大地突出了第 228 小节和第 232 小节中主题动机的进入以及随后长笛和单簧管的独奏乐句。钢琴部分可信的踏板法确保了富有效果的和声背景。

p. 31 第 229 小节, 第二小提琴。这一小节的前半部分中, 我们根据其他声部调整了节奏和乐句, 分割并缩短了二分音符 db^1 (5、6)。

第 233-236 小节, 小提琴。我们加强了两个小提琴声部的旋律性并且减少了和声的填充音(1)。

第 233-251 小节, 长笛、双簧管、单簧管和大管。由于现代钢琴拥有更为有力的声音, 因此, 我们将演奏主题以

及对位乐句的木管乐器数量进行加倍。可参见第 201-234 小节的标注。

p. 34 第 255-256 小节, 第一小提琴。在主要的音乐文本中, 我们知道 db^1 出现在 M^{orch} 中。充足的证据说明 h 记号并不是因过失而遗漏:

— db 和 db^1 出现在前一小节的和弦中, 前一个 db^1 音的出现离此仅隔一个四分音符, 肖邦在这里疏漏是极不可能的;

—在第 325-327 小节类似的和声语境中, 肖邦使用了相同的和弦。

在 PGE 和其他的底本中, 这些音之前增加了还原记号, 但是没有任何证据表明肖邦参与过这些修改。

第 256 小节。弦乐中的震音由编者所加(根据 SSi), 为的是加强肖邦亲笔在定音鼓声部中记谱的效果。可参见第 180 小节和第 336 小节中 *tutti* 进入之前的渐强和震音。

p. 35 第 257 小节, 小提琴和中提琴。在前三个八分音符上, 与 A 的记谱相符, 我们仅给出了 C, 其中 C 大三和弦的三音和五音直到第 4 个八分音符才出现, 并且与典型动机一起出现。

第 257-263 小节, 长笛。我们修改了这个声部, 在加重音的重复动机和第 258、260 小节八分音符的旋律线中加强了上方八度(1)。

第 259 小节和第 261 小节, 第二小提琴。依照 A, 我们将前六个十六分音符由 e^1 改为 g^1 。

第 262 小节, 圆号和小号。我们增补了这两个声部(7)。

p. 36 第 264-267 小节, 圆号, 小号 and 长号。我们修改并增补了这几个声部(1、7)。

第 266-267 小节, 大提琴和低音提琴。在第 266 小节的后半部分中, 我们根据 A 增补了这两个声部。在第 266 和第 267 小节间的过渡部分中, 我们将低音提琴提高了一个八度(2)。

p. 37 第 277-280 小节, 第二小提琴和中提琴。我们增加了中提琴声部以避免第 277-278 小节中第二小提琴出现双音。由于有 *p* 和 *pizz.* 的提示, 因此, 这并没有使伴奏显得过于沉重。

p. 38 第 290 小节, 大提琴。在这一小节结束处我们插入一个八分音符 E, 以便与钢琴部分的低音线条相统一(9)。

第 292 小节, 第一小提琴。对于作为一个四分音符的倚音 eb^1 , 最有可能的节奏方式已在音乐文本中写出, 以此来避免任何演奏上的误解。

第 294 小节, 大提琴。我们缩减了第 2 个音符, 使其与

小提琴声部的节奏相一致(6)。

第 295-297 小节,第二小提琴和中提琴。根据肖邦在 A 中的精确指示(第 297 小节第 3 拍的和弦为小提琴和大提琴),我们将中提琴声部(在修改了第 296 小节之后——参见后面的音符)移交给第二小提琴。

第 296 小节,小提琴。我们排除了与钢琴声部之间不协和的和声(9)。

p. 42 第 337 小节,长号。我们在这一小节开始处增加了一个八分音符。

第 337 小节和第 339 小节,小提琴。我们修改了这两小节的前半部分,使其与 A 相符。

p. 43 第 341-342 小节。在这个由一小节长度、四个声部组成的乐句中,肖邦在 A 中没有作任何配器和力度上变化的标注(p ——直到 FE 版本的校对中才被增加)。这可能表示,在这里,他想在织体和音区上进行变化,而不是在力度上。鉴于这个原因,我们按照第 199-201 小节那样加强了力度(8)。

第 342 小节,双簧管、单簧管和圆号。在第 2 和第 3 拍上,我们修改了这几个声部以更符合 A 中和弦的纵向排列。

第二大管、长号和低音提琴。我们修改(第二大管)或删除了(长号和低音提琴)几个声部,使其比肖邦在 A 中所写的低音线条低一个八度(2)。

第 343-345 小节,低音提琴。我们根据 A 删除了这个声部(2)。

第 345 小节和第 346 小节,大提琴。我们增补了主要动机的力量,其在 A 中以八度音引入(2)。

第 346 小节,定音鼓。在第 4 拍上,我们删除了震音,因这个和弦的演奏法与 A 中 *staccato* 的奏法不一致。

第 346-348 小节,大提琴和低音提琴。我们根据 A 修改了这个声部(2)。

II. Larghetto

p. 44 第 2 小节和第 92 小节,双簧管、单簧管和大管。在第 3 和第 4 拍上,我们给出了与 A 相同的重复音。ReF 有着相似的记谱(第 2 小节中,在 ab^1 上也有一个保持音的连线)。这几个动机上独立完整的连线来自 A 中的第 92 小节。肖邦偶尔使用的这种持续重音,尽管不多见(参见第 18 小节和第 86 小节,钢琴声部),但是被本版的编者所采用。

第 4 小节,中提琴。我们将 eb 改为 eb^1 ,以符合 A(2)。

第 6 小节,低音提琴。我们删除了在 ReF 中没有的 Ab ,这里没有必要重复钢琴声部中的 Ab_1 (2)。

p. 46 第 30-31 小节,第一小提琴。我们修改了这个声部以符

合肖邦在如第 79-80 小节中所作的修改。

p. 47 第 36 小节,低音提琴。我们将第 1 个音提高了一个八度以符合 ReF(2)。

p. 48 第 44 小节,长笛、双簧管和大管。我们增加了一个 a^2 (1)。

第 49-57 小节。我们给出了建议的力度记号,这个记号与独奏部分可信的力度记号非常协调。在这里缺少记号可能是一个疏漏——可参见第 62-67 小节在所有底本中出现的记号。

p. 50 第 65-66 小节,中提琴。我们根据 ReF 修改了这个声部。此外, $M^{orch}(\rightarrow PGE \rightarrow PEF)$ 中有一个明显的错误:第 65 小节开始处的 db^1 (在 SS 中改为 cb^1)。

p. 51 第 70-72 小节,低音提琴。我们删除了 eb 的同音连线(5)。

第 72 小节,第一大管。我们增加了 eb (这个和弦没有解决),使大管演奏者能够很容易地进入到第 83 小节的独奏乐句中。

p. 53 第 91 小节,大提琴。我们在第 2 拍上重复了 ab 以与 A 和 ReF 相一致(5)。在低音提琴声部我们没有采用这个效果,这样可以使这个动机的引入尽可能平稳流畅。第 96-97 小节。我们给出了出现在 ReF 中的 *ppp*,这个记号可能抄自 [SI]。这个出现在 M^{orch} 的力度记号(——)显然是抄谱员例行惯例增加上去的。

III. Allegro vivace

p. 54 第 6-7 小节和第 330-331 小节,第二小提琴。我们删除了 db^1 的同音连线(5)。

第 15 小节和第 339 小节,第二小提琴。为了使分句相统一,我们重复了这一小节结束处的 bb (5)。

p. 55 第 16-24 小节和第 340-348 小节,长笛、双簧管和单簧管。我们用长笛和第一双簧管加强了旋律的力度,我们还在第二双簧管声部以及第 17-19 小节和第 341-343 小节的单簧管声部中作了相应的修改(1)。对于 A 中第 16-20 小节以及类似小节中的两种连线,我们更倾向用与 M^{orch} 连线法一致的第 340-344 小节中的形式。第 19 小节和第 343 小节。在第 2 拍上,根据肖邦在 FE2 中的修改,我们在旋律中给出了 e^2 (与和声伴奏中的 e^1 一致)。他显然是想将这个修正同样应用到乐队版本中(器乐声部没有出现修正是因为肖邦没有参与 PFE 的准备工作)。

第 20 小节和第 344 小节,小号。通过与第 18 小节和第 342 小节相比较,我们增补了这个声部(7)。

第二小提琴和中提琴。在第 1 拍上,我们删除了和弦的七音 f^1 ,它没有出现在基础底本中。

第 23-24 小节和第 347-348 小节,圆号和小号,我们修改了这两个声部(7)。

第 29-32 小节和第 373-376 小节,小提琴、中提琴和大提琴。第 30-32 小节和类似小节中和声的连续进行由肖邦在 A 中通过写在左手声部上小的四分音符所指示。编者认为,这种记谱不仅是一种与钢琴有关的设计,而且是一种关于弦乐伴奏特征的指示。因此,我们用四分音符替换了 M^{orch} (及其他所有底本) 中的附点二分音符(6)。这样,这几小节及其后小节之间的对比就清晰可见了。毫无疑问,这种对比是肖邦想要的(写在 M^{orch} 中的 *legato* 改变了独奏声部的性格)。

p. 56 第 47、51 和类似小节,圆号和长号。我们修改了这两个声部(7)。

第 48-49 小节,第一双簧管和第二圆号。作为旋律的伴奏(解决到六度),我们根据 A 的记谱给出了八度 c^1 - c^2 。A 版本毫无疑问是有意将此处与类似的第 392-393 小节相区别(ReF 中的这两处属初期的、相一致的版本)。

第 49 小节和第 393 小节,长笛、第一单簧管和小号。我们修改了这几个声部(1)。

第 53 小节和第 397 小节,第二大管。我们将 F 改为符合 A 的 f(2)。

第 55、57-59 小节和类似小节,圆号。我们用乐队其余声部的和弦连接实现了圆号和小号声部一致的切分音并置,以符合 A。

第 55-56、59-60 小节和第 399-400 小节,长笛、双簧管和小提琴。我们加强了旋律的力度,并且删除了一些在 A 的记谱中并不明显的持续音(1、5)。

p. 57 第 59-60 小节和第 403-405 小节,大提琴和低音提琴。我们将低音线条的相应部分移低了一个八度,以符合 A(2)。

第 63-64 小节,低音提琴。我们根据 A 将 f 改为 F(2)。

p. 58 第 81、83 和 89 小节,第一长笛、第一单簧管和第一大管。术语 *espress.* 由编者所加。

第 84-85、108-109 小节和第 110-111 小节,第一单簧管和第一大管。我们删除了连线(5),因为它们有可能违背了肖邦的意图,他在 M^{orch} 版本单簧管声部第 85 小节中写了一个重音;并且在这个版本第 92-93 小节的长笛声部缺少这个连线。

第 85-92 小节,大提琴和低音提琴。我们删除了第 85-88 小节低音提琴声部的 $A\flat$ 音,并且根据 ReF 修改了第 90-92 小节的两个低音声部(2)。

第 86-87 小节和第 94-95 小节,第二小提琴。我们删除了连线(5)。

p. 59 第 97 小节,中提琴。我们删除了低音不必要的延长,它并未在 ReF 中标注过(2)。

第 105 小节,第一小提琴。我们删除了在 ReF 中没有写出来的 $b\flat$ 。

第 108-112 小节,第二小提琴、中提琴和大提琴。根据 ReF,我们将低音移高了一个八度(2),并且在第 109-110 小节中,我们对第二小提琴和中提琴声部进行了适当的修改。

p. 60 第 113 小节,第一小提琴和中提琴。我们根据 ReF 修改了这两个声部。

第 116 小节,中提琴。在第 3 拍上,我们将 ab 改为 g ,以符合 ReF(9)。

第 120-121 小节,中提琴和大提琴。根据 ReF,我们将低音移高了一个八度(2),并且对中提琴声部进行了适当的修改。

p. 61 第 124-125 小节,第一小提琴。我们删除了连线,它与第 125 小节中的 ♩ 相矛盾(5)。

第 128-129 小节,第一单簧管。我们取消了乐句间拙劣的连接,删除了连线并且缩短了第 128 小节中的第 2 个音符。

第 130-131 小节,第一小提琴。在这一小节的开始处,我们删除了 ReF 中没有的切分音(重音和连线)。此外,在 A 中没有任何记谱表明这样一个乐句的开始是肖邦的意图(5)。

第 131 小节和第 135 小节,长笛、双簧管、单簧管和大管。我们删除了前一小节中保持过来的音符,它们并未出现在基础底本中(3)。

大提琴。根据基础底本,我们将 $E\flat$ 改为 eb (2)。

第 133-134 小节,小提琴和大提琴。我们删除了基础底本中没有出现的乐句延长(3)。

第 137-141 小节,在 ReF 中, $con 8^a$ 加在长笛旋律下方。这毫无疑问是最初版本的遗留,其中这个旋律为双音八度演奏(低八度旋律可能由一个双簧管演奏)。因为这个八度很不合适地侵占了担任伴奏的弦乐声部,因此在 M^{orch} 中将其删除作为修订,可参见第一乐章第 201-203 小节。

第 138-139 小节,大提琴。我们删除了连线以符合 A(5)。

第 141-145 小节,中提琴和大提琴。在这个部分中很难确定肖邦最终的意图。 M^{orch} 在此处是跨本小节的五度切分音:

缺少(与 M^{orch} 相比)重音和大部分的连线,是由于在校对 M^{orch} 过程中做了添加,并且(或是)抄写 ReF 时不够精确(连线最有可能是 ReF 中遗漏,而重音是在 M^{orch} 中增加的)。这一版本最有可能反映出肖邦最初的想法。此外, A 中有一个不同的记谱暗示了所有乐器使用统一的节奏(和运音法):

然而,如果肖邦的确改变了他的想法,那么为什么他没有在 M^{orch} 中表明这一明显的变动呢?毕竟 M^{orch} 中留下了很多他修改的蛛丝马迹。编者认为,我们例外地在此处处理的是一个典型的钢琴记谱,多多少少独立于乐队部分。因此,我们保留了 M^{orch} 和 ReF 中的五度切分音。

p. 62 第 155 小节,小提琴和中提琴。在 ReF 中,此处是与相邻小节完全相同的节奏,这显然是个错误。

第 166-167 小节,第一大管、中提琴和大提琴。根据 ReF 中清晰的分声部记谱,我们修改了这几个声部。

p. 63 第 176-177、180-181、184-185 小节和第 190-191 小节,中提琴和大提琴。我们删除了连线,使其部分符合 ReF(5)。

p. 64 第 201-205 小节,大提琴和低音提琴。根据 ReF,我们删除了低音提琴声部,并且将第 205 小节的大提琴声部中的 A^b 改为 ab (2)。

第 209 小节,低音提琴。我们将低音提琴的进入移至第 210 小节,以符合 ReF(2)。

第 214-216 小节和第 218 小节,低音提琴。我们修改了这个声部以符合 ReF(2)。

第 217 小节,钢琴。独奏声部的诸底本——A(→GE→FE→EE)——在低音中有一个 F,与此同时,乐队部分在 ReF 和 M^{orch} (→PGE→PEF)中,低音毫无疑问是 G。这样,二度音程 F-G 就在这一小节的开始处成为和声背景,特别是这个和声在后一小节未解决(ReF 中是 c^{eb} ; M^{orch} 中是 C^{eb}),这不可能是肖邦在此类伴奏中的意图。

在第 213-218 小节中,钢琴的低音与大提琴和低音提琴一起产生出(在 ReF 的记谱中)下面的进行(写在上方谱表中的是上方几个声部的和声布局):

在这个版本中,没有任何理由可以猜测肖邦想要将低音从 G 改为 F。由于要解决这个七度,因此应该在下一小节的低音中有一个改动(到 E^b),这在任何一个底本中都没有出现(这样的改动在一些后来的合集版本中出现过)。

此类以钢琴和低音提琴音色的交替来塑造低音线条是肖邦乐队作品中所特有的。这或许可以解释在以[A1](仅仅包含了独奏部分)为基础写作 A 的时候,肖邦怎么可能会忘记了用低音提琴进入以补充低声部旋律,以及采用 A^b-G^b-F 的“自动”终止进行。

p. 66 第 237-240 小节,低音提琴。我们将低音提琴的进入移至第 239 小节,并且在第 240 小节根据 ReF 修改了这个声部(2)。

第 242-243 小节,大提琴。我们根据 ReF 删除了这个连线(5)。

第 249-257 小节,大提琴和低音提琴。为了符合 ReF,我们将低音提琴声部延长到第 255 小节。我们随即延长了两小节大提琴的 g^b ,为了避免低音背景音色的突变(2)。

第 256-261 小节,第一圆号和第二小提琴。将第二小提琴声部转给圆号是本版编者的一次“冒险行为”,其目的是引出并且强调第 260 小节可信的 f^b 的音色(看一下下一个音)。这种使用圆号的方式是肖邦在配器上喜欢使用的方式之一(参见《F 小调协奏曲》第一乐章第 96-98 小节和第 313-314 小节,第三乐章第 177-184 小节;《E 小调协奏曲》第一乐章第 181-191 小节和类似小节、第 612-621 小节,第二乐章第 42-46 小节,第三乐章第 96-99 小节和类似小节、第 488-492 小节)。

p. 67 第 260 小节, F 调第一圆号。在 M^{orch} (→PGE→PEF, →SS)中,这个声部由第二小提琴演奏(参见之前的音符),并且在此小节中有 eb^b ,与钢琴声部中的 d^b 和 d^b 冲突。我们修改了这个错误(武断地进入?)以符合 ReF。ReF 中为 f^b ,抄自[SI](在圆号声部中,正确的记谱为 c^b)(9)。

第 264-265、278-279 小节和第 283-284 小节,第一小提琴、中提琴和大提琴。我们删除了连线(5)。

第 267-268、276 小节,小提琴、中提琴和大提琴。在这八小节乐句的结束处,我们在这种常规的和声伴奏中插入了短暂的休止(6)。

第 275-286 小节,大提琴和低音提琴。我们删除了低音

提琴声部,并且在第 283-286 小节中将大提琴声部移低了一个八度,以符合 **ReF** 的记谱(2)。

p. 69 第 304-305 小节,第一小提琴、大提琴和低音提琴。我们依照 **ReF** 删除了连线,在 **ReF** 中很清楚这些连线已被删除(5)。

第 312-313 小节,单簧管。根据 **A** 和 **ReF**,我们从第 313 小节的开头开始了一个新乐句,因此,我们删除了连线并且缩短了前一乐句最后一个音符的时值(5、6)我们删除了大提琴和低音提琴的连线以符合 **ReF**(5)。

p. 71 第 351-352 小节,第二小提琴。根据 **ReF**,我们删除了连线(5)。

第 356-357、360-361、362-363 小节和第 365-369 小节,小提琴、中提琴和大提琴。我们删除了连线,以确保和声改变时节奏能够不断加密(5)。

p. 72 第 397-398 小节,长号、大提琴和低音提琴。我们将 c 改为 c^1 以符合 **A**(2)。

p. 73 第 403-404 小节,圆号和小号。我们增补了这两个声部(7)。

第 406-409 小节,圆号。标记 *Cor de signal* 出现在 **M^{orch}** ($\rightarrow$ **PGE** $\rightarrow$ **PEF**)中,毫无疑问是抄自[SI]。尽管 **A** 中仅有由肖邦写下的 *Cor*,但是这个术语在 **GE** ($\rightarrow$ **FE** $\rightarrow$ **EE**)中被加上了后半部分(*de signal*)。由于作曲家参与其校订,因此其真实性毋庸置疑。遗憾的是,没有任何一个底本证实使用了这一“信号圆号”,如同在《E 小调协奏曲》的“浪漫曲”乐章中弱音器的使用一样(肖邦在信中提到过两次)。此外,也不能排除肖邦在某些阶段否定了这个想法,其原因既可能是一些演出上的困难,也可能是某人的建议。无论怎样,一些历史上和音乐上的证据使我们确信在这几小节中使用不同的配器是肖邦最初的意图:

一在肖邦青年时代的华沙,驿车号的演奏在由钢琴和其他乐器演奏的流行小品中非常时髦。“大量的舞曲出现在 1830 年之前,而且占据了 Klukowski(出版社的)出版数量的大部分(……)。与玛祖卡同样流行的是圆舞曲(……),其中可以听到驿车号。”*

一肖邦一定非常熟悉那些与旅行者相伴牵引马车的人吹出的信号。有可能在 1829 年 7 月末去维也纳的旅途中他听到了这样的号角声,导致了这个片段的产生,以及其后扩展出来的这个炫技性尾声。这段也可以用 19 世纪在奥地利使用的真正驿车号来演奏,效果相似(这里给出的是 F 调乐器的音高)**。

等等。

—此处乐器的改变呈现出富于色彩的效果,赋予音乐以表现力;在 F 小调较为暗淡的色彩之后,由驿车号渲染的明亮轻柔的色彩将壮丽融入到尾声那欢乐的气氛中(F 大调)。

肖邦在脑海中能否精确地辨认各种乐器性能是值得怀疑的。他创作这部协奏曲的时期是木管乐器制造业的繁盛时期,新乐器不断问世,原有乐器不断改良。然而此处最有可能运用的乐器是驿车号中较简单的一种,在当时普遍使用(F 调)。

可见《演奏注释》:第 349 小节和第 406-409 小节;第 403-409 小节。

p. 74 第 427 小节,中提琴。我们将 c^1 改为 a 以符合 **ReF** 和类似的第 467 小节(诸底本相同),这毫无疑问是个疏漏。

p. 75 第 436-437 小节,第二小提琴。我们删除了连线(5)。第 488-449 小节,长笛。我们将这个声部移高了一个八度(1)。**M^{orch}** ($\rightarrow$ **PGE** $\rightarrow$ **PEF**, $\rightarrow$ **SS**)中双簧管演奏的音比长笛高,这无疑是个错误(高八度记号被遗漏,参见《版本注释》中关于历史版的第 394-395 小节的注释)第 452 小节,第二小提琴。我们将很可能是错音的 c^1 改为 a (参见类似的第 412、420 和第 460 小节)。

p. 76 第 471-472 小节,中提琴。我们删除了连线(5)。

p. 77 第 477-478 小节,第二小提琴和中提琴。我们根据 **ReF** 修改了这两个声部。

第 491-492 小节。诸底本在这里所呈现的无疑是一种被破坏的音乐文本,几乎每种都各不相同。毫无疑问,这里的分歧或错误是由于[SI]中不清楚的记谱以及肖邦仅部分参与了乐队部分的编辑。不同的记谱如下所示:

括号中的低音 C 用铅笔被删除。另一处明显的错误是右手第 2 个和弦。

* T. Frańczyk:《肖邦青年时代的华沙》(Kraków, 1961),第 271—272 页。

** A. Hiler:《驿车号大全》(Wilhelmshaven, 2000),第 92 页。

有疑问的是第4个和弦的音响,这个和弦既没有出现在 **ReF** 和 **FE2** 中的 *f*,也没有 **A**(→**GE**→**FE**→**EE**)中的 *b_b*。此外值得注意的是最后一个完整的七和弦(四个音)。

应该被强调的是原始手稿中这个片段并非由肖邦写下。此处显而易见的错误是第4个和弦是 *d¹* 而非 *c¹*、第5个和弦少了 *b_b*。在 **GE**(→**FE1**→**EE**)中,仅第1个错误被修改,而且第1个和弦中的 *b_b* 被遗漏。

肖邦在校对的最后阶段将第4个和弦的 *e* 改为 *f*(**EE**中是 *e*)。

我们改正了肖邦钢琴缩谱中的这个错误,合并了诸底本中最为可靠的要素——前三个和弦来自 **A**,第4个和弦采用了肖邦在 **FE2** 中修改的版本,第5个和弦根

据的是 **M^{orch}**(根据 **A** 中前面的和弦来排列)。在此基础上,我们又创建了乐队部分的记谱(1、7),这样,这一版本看上去已经非常接近肖邦最终的意图。至于最有疑问的第492小节,我们所采用的是肖邦在《升F小调即兴曲》(Op. 36)中第31、35小节和类似小节曾用过的和声进行,二者节奏相似。

F调第二圆号。在 **M^{orch}**(→**GE**→**EF**)中,音符 *c* 写在低音谱表中,因此发音为 *f*。然而,这个音符却应该是 *F*,因为 *f* 应该被作为 *c¹* 写在高音谱表中,见第514小节的音符。**SS**是正确的版本。

p. 79 第508-510小节,小提琴、中提琴、大提琴和低音提琴。

我们采用 **ReF** 作为基础音乐文本,在第508-509小节中增补了低音提琴声部,将第509-510小节中提琴声部的 *c* 改为 *c¹*,并且删除了连线(2、5)。

第512-514小节,长笛、双簧管、单簧管、圆号、小号、小提琴、大提琴和低音提琴。根据 **A** 和 **ReF** 中的记谱形式,我们调整了几个和弦音(1、2、7)。

扬·艾凯尔
巴维尔·卡明斯基

演奏注释

音乐文本注释

“长重音记号”(Long accents)指有表情意义的重音。在演奏时,要比通常的重音(一般用于时值较短的音符,有时会涵盖两到三个音符)时值稍长些,同时音色也没有通常情况下的重音那么尖锐。这种重音更注重的是一种语气的效果。

对于诠释肖邦作品的一般性问题将在单行本《国家版导言》中的《演奏问题》一部分进行探讨。

F 小调协奏曲, Op. 21

I. Measoso

p. 11 开始部分。在第 1 个 *tutti* 中,节拍器速度 $J = 138$ 看起来与 *Measoso* 的标记相矛盾。如果我们将这部协奏曲第一乐章中所有的速度作为一个确定的速度区域,那么这个由肖邦写下的节拍器速度就可以被看成是这个区域中的最高限速。例如,它与展开部中音型化乐句(从第 225 小节开始)的速度相一致。与此同时,对于第 1 个 *tutti*,编者建议使用最接近这个区域最低限速的速度,不低于 $J = 112$ 。但是应该小心,协奏曲第一乐章合适的弹性速度应该通过段落之间不同速度平稳和逐渐的转换获得。因此,编者反对那种常见的速度突变,要明确区分抒情段落和音型化的部分(对于肖邦节拍器速度的问题会在我们编辑的《练习曲》之《演奏注释》的简评部分进行更为详尽的讨论)。

II. Larghetto

p. 48 第 49-57 小节。由编者所加的力度记号的合并留给指挥家来作决断。不消说,指挥家也应该将概念的解读和独奏者的能力考虑在内。

p. 51 第 72 小节。诸底本中对此小节乐队声部前半部分的二分音符该延续多长时间并不明确:

一与钢琴声部的颤音一样长,与节奏的记谱一致(带延长记号的二分音符)。

一较长,直到颤音之后的音阶结束(“从后往前”数节奏时值,我们会发现这一小节第二部分开始于钢琴声部中的八度 $b\flat^2 - b\flat^3$,也就是那个音阶之后)。

现实演奏中,这两种形式看起来都可以接受,但是最终的形式要取决于独奏者。

III. Allegro vivace

p. 70 第 349 小节和第 406-409 小节, F 调第一圆号。在第 406-409 小节中,肖邦无疑是想使用一件与众不同的乐器,最有可能的是 F 调驿车号(见《版本注释》)。由于要找到这样一件早期乐器用于音乐会演奏非常困难,因此编者建议演奏者要考虑肖邦的意图,选用一件驿车号的现代复制品*。此外,可以用一个驿车号的后裔乐器,如短号或夫吕号(最理想的为 F 调)代替,这些乐器较容易找到。使用这样一件与肖邦的本意相符的乐器衍生品,是否具有实用性,毫无疑问会在音乐舞台上长时间的试验之后才能判定**。

由于在第 406 小节之前没有足够的时间,因此更换乐器应该在较早的第 349-387 小节。如果使用一件自然音乐器,那么第 388-405 小节 *Tutti* 中的第一圆号声部不可能被演奏出。在这样的情况下,编者建议以下面的方式来安排“驿车号”和第二圆号声部,从而保证完成这个 *Tutti*:

Cor de signal in fa

Cor. II in fa

Cor de signal in fa

Cor. II in fa

Cor de signal in fa

Cor. II in fa

SOLO

* 这样的复制品可以从 Diespeck(德国)的 Rudolf Meinl works 订购。

** 波兰国家版的编者要向 Edward H. Tarr 博士致以诚挚的感谢,他在这件乐器的历史和演奏方面提供了一些有价值的线索。

p. 73 第 403-409 小节。人们会注意到在这几小节中没有任何指示,无论是暗示减速还是第 405 小节中的休止。鉴于肖邦在这部协奏曲其他部分作出了多次此类的指示,因此这里很有可能是他希望不要中断音乐的自然流动。这种情况下习以为常的减速已经为现代演出的实际操作所采用,其原因在于用圆号演奏第 406-409 小节快速的号角声有诸多困难。使用一种轻巧灵活、便于演奏的乐器代替圆号(参见前一条注释)可以较容易以统一的速度完成这个段落。

此处保持一种泰然自若的速度也有着某种结构上的含义,可以使人听出规律的四小节乐句,而其中,第 406 小节独奏号角的开始就落在了四小节音组的第 2(!)小

节上*。演奏者经常在第 405 小节中使用一个延长记号来中断音乐运动,这会使第 406 小节错误地成为一个新段落的开始,因此也就会错误地产生出一个新的四小节音组(四小节乐句一直贯穿这部协奏曲的终曲乐章)。

p. 78 第 491-492 小节。在此处没有任何一个底本有缓急法指示。因此,在这些小节中减速是一个不可信的惯例,它削弱了第 493 小节中由休止符所产生的效果。

* 这里的意思是:如果在第 401-409 小节中不放慢速度,就会产生一种四小节的音组,即第 401-404、405-408 小节,这样,第 406 小节号角音型的开始就落在了三小节音组的第 2 小节中。可参见下文。——译者

Editorial Conception of the Scores of Fryderyk Chopin's *Concertos*

The orchestral scores of Chopin's *Concertos* are one of the most difficult editorial challenges to publishers of his works. There are two main reasons for these difficulties:

- the lack of sources that one could regard in their entirety and without reservation as transmitting Chopin's text,
- the unquestionable participation of foreign hands at various stages in the forming of the instrumentation of the *Concertos*.

Judging by the extant sources for earlier concert works by Chopin (Opp. 2, 13 and 14), we might have expected some sketches and original, working versions of the scores to exist. Yet no autograph of this type – discounting a bar-and-a-half sketch of a fragment from mvt. I of the *Concerto in F minor* – has survived. The fact that the *Concertos* were performed with orchestra indicates the existence of fair copies of the scores and orchestral parts from which Chopin played both these works in Warsaw, and subsequently on his first appearances abroad; this is confirmed by mentions in his correspondence ('the scores bound'). These manuscripts have also disappeared, a loss which is felt most acutely by editors, since the extant later sources based (not always directly) on these manuscripts – the orchestra part of the 'semiautograph' of the *F minor Concerto* and the printed parts of the first French edition of the *E minor Concerto* – were produced essentially without Chopin's participation; one can only presume that they contain some occasional, minor alterations by the composer. The lack of these sources is compensated for, albeit to a certain degree only, by the extant piano reductions of the accompaniments to mvts. II and III of both *Concertos*, allowing for some approximate reconstructions to be made. These are a photograph of a reduction prepared by Fontana, doubtless from the above-mentioned fair copy of the score of the *Concerto in F minor*, and two reductions (of the whole orchestra and the wind section) written out by Franchomme, most probably from manuscript orchestral materials (parts) of the *Concerto in E minor*.

The orchestration of the *Concertos* in the form transmitted to us by the scores compiled from the parts of the first editions betrays certain features alien to Chopin's musical thinking. These features become manifest primarily on comparing the orchestra part with piano reductions of the *tutti* undoubtedly prepared by Chopin or with the solo part. These are the following:

- the shifting of the centre of gravity of the sound of the orchestra towards the middle register, to the detriment of the melody line;
- the lowering and doubling of the bass line, deforming Chopin's conception of the 'sound field';
- the overlapping of the group of instruments ending a phrase with the group beginning a new phrase, which is a device characteristic of fully fledged romantic instrumentation; such 'splices' are particularly suspicious when the Chopin reduction shows in a new phrase the names of the instruments or a change in dynamics and character (e.g. Violini, *dolce*); Chopin preferred the juxtaposition of groups, cf. e.g. the openings of mvt. II of the *F minor Concerto* and mvt. III of the *E minor Concerto*;
- the excessive use of tremolando in the strings;
- the tying notes of the same pitch on every occasion;
- the long-held notes of the string accompaniment (in the semiautograph of the *F minor Concerto* one finds several corrections, in the composer's hand, involving their shortening or separation with rests, mvt. I bars 104, 137, 247-248, 294, mvt. II bars 79-80);
- contradictions of harmony, dynamics and articulation compared with the authentic part of the solo piano;
- the inconsistent marking of articulation.

This enables one to draw the conclusion that some foreign hands probably helped to impart to the score the form which we know today. Investigation into the historical circumstances of the period during which these works were written indicates that the influence of his collaborators may be manifest from the very first Warsaw scores.

One deduces from Chopin's letters that the composing of the two *Concertos* and the preparation of the accompanying orchestral materials necessary for public performance took him about one year. We also know that during this time he carried on a normal social life, attended operatic productions and concerts in artistic salons, and held rehearsals of chamber works by himself and by others, prior to their performance

in the same salons. He travelled beyond Warsaw (to Strzyżewo, Antonin, Poturzyn). If we add to this the dozen or so smaller scale works that he wrote during this period, it seems reasonable to ask how he could have found time to do everything. After all, the very composition of large forms, in which he was not yet greatly experienced, and their correction must have consumed a lot of this time ('I do not want anyone's verdict on the *Rondo* [of the *Concerto in F minor*] since I am still not quite pleased with it'). How to fit in here the instrumentation for the whole orchestra, including dense *tutti*, transpositions, etc., in which he was also less than well-versed? A simple conclusion presents itself: someone must have helped him. He could have sought this assistance among colleagues from Elsner's class more skilled in instrumentation. A few such names crop up in his correspondence. 'Linowski is copying hurriedly, but he has already started the *Rondo* [of the *Concerto in E minor*]'.³ Comparing the dates, however, one concludes that this probably referred to the parts. One interesting item, albeit rather vague, was recorded by F. Hoesick: '[Chopin] allowed Ignacy Dobrzyński to "transinstrument" both *Concertos*. Both scores have been lost. I am grateful for this detail to Director Adam Münchheimer'.⁴ He further quotes Münchheimer: 'From the lips of the late Ignacy Feliks Dobrzyński I heard that he instrumented both the maestro's *Concertos* while the composer was still alive'.⁵ However, no additional information on this matter has come to light.

References to progress on the *Concertos* are accompanied in the letters by the motif of haste. Following a sojourn at the Radziwiłłs' residence in Antonin, he wrote: 'my *Concerto* [in *F minor*] is not yet finished, and, impatiently awaiting the completion of its finale, has impelled me to leave this paradise',⁶ and three months later, now on the *Concerto in E minor* '[...] the task is urgent, I have to write in a hurry'.⁷

Taken together, all these arguments point to the likely participation of foreign hands in the very first scores, although the lack of sources makes it difficult to point to places where this interference may have occurred and to establish its scale. Whatever the case may be, the expression of doubt as to whether Chopin wrote out the entirety of the first scores of the *Concertos* in his own hand can be regarded as justified.

Certain changes were most probably also made to the instrumentation of the *Concertos* during the periods preceding their publication (amendments to and expansion of the parts of the double basses and the violas, numerous supplements to the wind instrument parts). Such is indicated by a comparison of the extant orchestral material with the Fontana and Franchomme reductions. It is almost certain that Chopin's participation in these alterations was insignificant and occasional in character.

Thus, the incompleteness of the sources and the resultant impossibility of specifying the exact relationships between them create a situation in which we are sometimes certain that foreign hands have been involved in a given place, yet unsure as to the moment when this occurred, and utterly unable to indicate who may have been responsible.

The full scores of both *Concertos* were issued in print by the publishers of their piano scores and orchestral parts: the *Concerto in F minor* by Breitkopf & Härtel in Leipzig (two editions, 1865-1866 and 1879), and the *Concerto in E minor* by the firm of F. Kistner in Leipzig (two editions, c. 1866 and 1875), and subsequently by Breitkopf & Härtel (1880). The first printed scores were compiled from the parts printed by the firm in question, with some errors corrected and alterations made – not infrequently crucial – in the performance markings. Subsequent editions of each *Concerto* were essentially based on their predecessors, with some errors corrected, others repeated, and further changes effected. The final editions, by Breitkopf & Härtel, function to the present day on concert platforms around the world, regarded as the 'original' scores.

For over 150 years, this group of nineteenth-century scores has shaped the attitudes of musicians towards the accompaniments of Chopin's *Concertos*, as well as performance traditions and the tastes of audiences.

As early as the first orchestral performance in Paris of mvt. I of the *E minor Concerto* (20 May 1832; Chopin had already played the *Concerto* in February of that year, with great success, yet this was a solo rendition or with quintet accompaniment) a disproportion was noticed between the sound of the solo part and that of the accompaniment. The reviewer of the daily *Le Temps* wrote: 'The first movement of the *Concerto* made a greater impression in the private concerts. This must be ascribed [...] to a certain heaviness of the accompaniment [...]'.⁸

A few days later, F.-J. Fétis expressed a very similar view: 'This time the performance was not received so well, which should undoubtedly be attributed to the thick instrumentation [...]'.⁹

Considerable influence on the opinions of professional circles with regard to the accompaniments to Chopin's *Concertos* may have been exerted by two figures: H. Berlioz, the great symphonist of the Romantic era and author of the *Traité d'instrumentation et d'orchestration modernes*, and F. Niecks, the author of a valuable biography – one of the first – of Chopin (1888). Berlioz, contrary to his earlier enthusiastic review of a performance by Chopin with orchestra of the *Romance* from the *E minor Concerto*¹⁰, made the famous remark: 'The whole charm of Chopin's works is focussed on the piano part; the orchestra of his *Concertos* is nothing more than a cold and virtually useless accompaniment'.¹¹ Niecks's opinion, meanwhile, read thus: '[...] Chopin's originality is gone as soon as he writes for another instrument than the pianoforte'.¹²

Reservations with regard to the orchestration of the accompaniments were also not lacking among Polish musicians. Here is the opinion of W. Żeleński: 'In the *Concertos* we are not satisfied with the orchestral part. For whilst the solo part is supremely beautiful and colourful in its detail, the orchestra fails to provide adequate support, thus not only does it not enhance our interest, it rather diminishes and frustrates it'.¹³ Few observers rated the orchestral parts highly.

All this has contributed to the creation of a certain stereotype of Chopin as an artist marked by the genius of 'pianoforte thinking' but devoid of the skill of 'orchestral thinking'.

Regardless of the fact that no-one has taken the trouble to establish whether Chopin himself was responsible for all the shortcomings in the score, the authors of negative evaluations of the accompaniments have committed the notorious error of anachronism, presuming the norm to be solely their own orchestral thinking, i.e. thinking in terms of the greatest development of symphonic music of the Romantic era.

The accusation that Chopin was bereft of orchestral thinking is sufficiently weighty to warrant a number of digressions. One may generally doubt the existence of an objective notion of 'orchestral thinking'. It was once said in respect to the orchestrations of J. S. Bach that 'he did not instrument, he registered', in other words his thinking was organ-orchestra orientated. Even if this opinion is too far-reaching a generalisation, one can certainly find this phenomenon in some of his compositions. Haydn and Mozart, as well as Beethoven in his early works, applied quartet-orchestra thinking. Perhaps Chopin represented piano-orchestra thinking: If so, let us enquire in which sources this is best expressed.

This question may be answered by an event from the Paris period of Chopin's life. In 1842, he organised in his own drawing-room a recital by his brilliant 12-year-old pupil Carl Filtsch, preparing with him the first movement of the *Concerto in E minor*. As another Chopin pupil, W. von Lenz, relates, 'When he finally allowed Filtsch to play the whole work [...], the Master declared: "You have prepared this movement so splendidly that we can perform it: I shall be your orchestra". [...] Chopin re-created the whole well-devised, ephemeral instrumentation of this composition in his incomparable accompaniment. He played by heart. Never before have I heard anything to equal the first *tutti* [...]'.¹⁴ This is borne out by a description of a Chopin accompaniment recorded by his pupil C. O'Méara-Dubois: 'Chopin had always a cottage piano by the side of the grand piano on which he gave his lessons. It was marvellous to hear him accompany, no matter what compositions, from the concertos of Hummel to those of Beethoven'.¹⁵

The accounts of firsthand witnesses with Chopin's own words quoted therein seem most illustrative of his piano-orchestra thinking, giving the lie to Berlioz's opinion of 'cold and virtually useless accompaniments'. Meanwhile, to the question as to where this thinking is best documented, there exists only one reply: in the piano reductions prepared by the composer.

Chopin's alleged lack of skill in writing for the orchestra also led to a certain phenomenon probably hitherto not encountered on such a scale in the history of music. Between the late nineteenth century and the mid twentieth century numerous adaptations were produced with the aim of 'refining' the accompaniments to Chopin's *Concertos*. Among those responsible were Klindworth, Münchheimer, Balakirev, Tausig, Burmeister (whose arrangement was used by I. J. Paderewski in performing the *F minor Concerto*), Cortot, Reichwein, and Fitelberg.

All those undertaking such adaptations endeavoured to reduce the chasm separating the brilliant piano parts and the orchestra parts through the enhancement of the sound and the forces of the orchestra (sometimes by the use of as many as three trombones), which occasionally even necessitated the virtuosic expansion of the piano texture (!). It was always the same anachronism, the changes being made in the direction of the orchestral sonorities achieved during the times of the authors of the adaptations, who lived many years after Chopin, in the period of the great development of symphonic music. It is not surprising, then, that these efforts did not find acceptance, and this direction in the search for a solution to the problem was deemed, it would seem, to lead to nowhere.

Since the mid twentieth century, a certain interest has been shown in the problem of the accompaniments to Chopin's *Concertos*, giving rise to objective attempts to revise widely held views regarding this area of his output. The authors of works on this subject – the Kraków musicologist A. Frączkiewicz and the English musicologist G. Abraham – endeavour to set Chopin's instrumentation within its historical context. They draw attention above all to the fact that during the period preceding the writing of the *Concertos* Chopin was familiar with the *Concertos* of neither Mozart nor Beethoven, and that his models were solely concertos written in the virtuoso style *brilliant* by Hummel, Moscheles, Ries and Field (Chopin himself played *Concertos* by Gyrovetz and Kalkbrenner). They concur that he could not have taken a more thoroughgoing knowledge of the art of instrumentation from his teacher, Józef Elsner.¹⁶ '[Chopin's orchestration] is much more individual than is commonly assumed; it is markedly superior to that of his Polish predecessor or that of his Western models Field and Hummel. It is limited in scope, yet so far as it goes it is always adequate, except in the thick *tutti*s, and sometimes much more than adequate – bold or delicate and poetically imaginative [...]'.¹⁷

Let us add a few more facts. Firstly, the *Concertos* were rarely performed by the full forces in Warsaw while Chopin was residing there. They were more frequently played in private drawing-rooms with quartet accompaniment. Secondly, Chopin held the majority of rehearsals of the *Concertos* with incomplete forces. He wrote the following to a friend: 'I rehearsed my *Concerto [in E minor]* with a quartet [...] I shall write you next week how it will sound with an orchestra [...] Tomorrow I want to do it once more with the quartet';¹⁸ four days later: 'Today I am rehearsing the second *Concerto [in E minor]* with the whole orchestra, with the exception of trumpets and kettle-drums'.¹⁹ There was little time left for rehearsals with the really full orchestra. Thirdly, Chopin never heard his *Concertos* from outside the orchestra, from the perspective of the concert hall, and therefore he could not have checked the sound proportions between particular instruments and sections.

Niecks's idea that Chopin's imagination was limited to the sound of a single instrument – the pianoforte – also fails to withstand scrutiny. It is contradicted by facts from Chopin's biography, by his output and comments. He was interested in other instruments from his schoolboy years. At Szafarnia (1824) he played a 'basetla' [a folk instrument similar to a cello], and this was most probably also where he wrote an earlier version of the *Mazurka in A minor* (Op. 7 No. 2), in which he imitates traditional folk bagpipes, or 'dudy'. He played the organ. He tried out a newly constructed instrument (the aeolopantalon), for which he even wrote two minor pieces (both unfortunately lost). He admired the playing of Paganini, and also of the Czech violinist Josef Slavík, with whom he wanted to compose variations on a theme by Beethoven. On Joseph Merck he wrote: 'He is the first cellist whom I adore close up'.²⁰ He admired the technical and expressive possibilities of bûgelhorns. His correspondence is also not lacking in statements of a more general nature: '*Le Comte Ory* [an opera by Rossini, 1828] is pleasant, particularly the instrumentation and choruses'.²¹

Yet the range of his interests is most eloquently expressed by his orchestral and chamber works from this period. The way in which he deploys solo wind instruments in compositions with orchestra testifies to his excellent feel for their tonal and expressive capacities. When referring to the Trio, Op. 8²², in his correspondence he considers the idea of replacing the violin with viola. In another letter he describes the construction and action of mutes²³, which indicates that this was a new orchestral device; Chopin's stressing of the imperative of their use in

the *Concerto in E minor* shows how important a musical role they played for him ('[...] without them the *Adagio* would fail' – he wrote to a friend²⁴). Finally, the bold use of effects and instruments rarely employed at that time (*col legno* and *cor de signal* in the *F minor Concerto*) show that Chopin kept abreast of innovations in instrumentation. It would also be no exaggeration to state that the recitative from the *Larghetto* of the *F minor Concerto* is one of the most beautiful orchestral pages in the history of the piano concerto, whilst of symbolic significance in this respect is the fact that the last work destined by the composer for print was the *Sonata* for piano and cello.

Thus we note a contradiction between the common stereotype of Chopin as incapable of thinking orchestrally, or in terms of the sound of instruments other than the pianoforte, and his actual leanings and achievements.

In considering Chopin's attitude towards his orchestra, E. Zimmermann, editor of Chopin's works at Henle-Verlag, addresses, albeit in quite general terms, the problem of the interference of foreign hands in Chopin's scores. He draws a 'provocative' – as he terms it – conclusion from the disappearance of the earliest written sources: 'I consider it a curious fact that 150 years after these works were composed we are not in a position to state with the utmost certainty whether even one single note in the orchestral parts of both *Concertos*, in the version in which we hear them today, actually comes from Chopin himself'²⁵. (This is, however, contradicted by the indications for the entries of instruments written by Chopin into the piano reductions.) He leaves unanswered the question: 'Could it be that Chopin wrote the whole piano part – therefore with the reduced orchestral places – and then, making use of this basic material, someone else (who?) instrumented the work? Or were there perhaps some sketches, plans or even a prepared instrumentation by Chopin himself [...]?'²⁶. Later, when characterising the printed scores, he writes: 'In the middle of the last [nineteenth] century changes appear to have begun in the conditions under which musical works were published. Composers of classical-romantic repertoire, who previously often participated themselves in the preparation of the first editions of their works, slowly departed the scene, and the editorial work passed into other hands. Now contradictions were discovered, alleged or genuine errors. [...] At this time texts began to be polished up, retouched, adjusted and unified'²⁷.

It is not the intention of the National Edition editorial team to evaluate Chopin's skills as the composer of orchestral parts. It is sufficient for us to express our conviction of his excellent predispositions for employing the orchestra in works for piano and orchestra. The full development of these skills was hampered by factors for which he was not culpable: gaps in his musical education, a lack of models of a higher calibre and the editorial customs of the day.

It is the task of the editors, meanwhile, to present the most authentic forms possible of the scores of both *Concertos* in such a way as to provide the opportunity of hearing them – as far as is possible – just as Chopin himself wished them to be heard, and by the same stroke help to shape true judgments concerning their significance for the history of this genre of music.

So we have at our disposal on the one hand the orchestral material appended to the solo part prepared for print by Chopin – the complete material, albeit contaminated by the participation of foreign hands, not supervised by Chopin – and on the other hand sources closer to the composer's intentions or even authentic, although only indirectly concerning the orchestra part. As far back as the 1970s, when the NE editorial committee was commencing its work, this situation led me to put forward the idea of two types of score for each of the *Concertos*, which would take account of all the editorial problems connected with the accompaniments. This distinction was initially rather vague. The 'concert' score was to be as close as possible to Chopin's orchestral thinking and serve concert performance, whilst the 'historical' score, prepared from materials intended by Chopin for print, was to constitute a record of the extant source orchestral material, with all its baggage of foreign accretions. Essential conditions with both types of score were that they be rooted in sources and that the editing methods be appropriately selected.

Since the 'concert' scores are an editorial form specific to NE and preferred by our editorial team as the basis for performance (hence the name), this type will be discussed at greater length and in the first instance. We will attempt to make our initial, broad editorial assumptions more specific, employing the experience acquired in the process of editing the previously published volumes, particularly the *Concertos* in their versions for piano.

A discussion of the principles behind the editing of the 'concert' scores must begin with the signalling of yet another issue, at once both historical and practical in nature, namely the difference in sonority between the orchestras of Chopin's times and modern-day orchestras.

The particular sections of the orchestra possessed different forces and tonal proportions, and the instruments different technical capacities. E.g. in the line-up of orchestras from those times the flutes possessed a more distinctive sound, whereas in our orchestras in the passages above the strings or between *ff tutti* chords they are often inaudible (e.g. *Concerto in E minor*, mvt. I, bars 99-103 and analogous bars, mvt. III, bar 111). The trombone, whose principal task was to reinforce the bass line, rather sparse in those days, in present-day orchestras sometimes sounds too distinct. In earlier scores we encounter bars filled with rests which at first glance are incomprehensible to us today, in places where Chopin wrote notes in the reduction, i.e. notes which he expressly intended. These notes were unplayable on the natural French horns of those times (e.g. *Concerto in F minor*, mvt. I, bar 262), yet present no difficulties for modern chromatic French horns. The contrary is sometimes also the case, e.g. the highest notes played by trumpets in E used by Chopin are impossible to perform on the trumpets in B $\flat$ employed today (e.g. *Concerto in E minor*, mvt. III, bar 107).

The primary sources for the 'concert' scores are the piano reductions written in Chopin's hand and corrected by him in the first editions. In these, of particular value are the indications as to the entries of particular instruments. Next are the piano reductions of Fontana and Franchomme, which allow us to reconstruct the state of the scores prior to the final phase of changes, doubtless introduced under the influence of the publishers.

However, these sources are not wholly adequate (e.g. the lack of the first movement of the *Concertos* in Fontana and Franchomme, the lack of a detailed layout of the instruments in the full *tutti*). Hence our further recourse to an examination of the internal musical traits of the accompaniments, perceived from a number of perspectives.

Let us pose three questions:

- If Chopin turned to his collaborators with the instrumentation of the accompaniments, then which parts would he have entrusted to them above all?
- Which parts have aroused the most reservations?
- Which parts require modification due to the different sonority of the orchestras of Chopin's times?

The answer to the first question is as follows: Chopin would have delegated above all the instrumentation of the full *tutti*, as these are the most time-consuming fragments (the number of instruments, the transpositions, the need for a skilled hand in the vertical layout of the instruments). Next he would have entrusted his assistants with the 'routine' harmonic backgrounds in the quintet, requiring no great invention.

The answer to the second question is surprisingly convergent with the answer to the first. The most heavily and commonly criticized parts are the *tutti*. '[...] In the *tuttis*, [...] Chopin's orchestration is most dull and conventional [...]'. It is the thick, unimaginative scoring of the opening *tuttis* of the two *Concertos* that has done more harm than anything else to Chopin's reputation as an orchestrator.²⁸ One also reads: 'Chopin's orchestration is less felicitous, as it is frequently scarce, without the exploitation of instrumental effects and without symphonic import. Chopin usually gives a quartet ground in drawn-out notes. It is wearisome'.²⁹ These opinions were not and are not isolated, and – with hindsight – can be deemed objective.

There is no question, however, that the thematic and contrapuntal parts entrusted by Chopin to the wind instruments are employed by him with a great sensitivity to colour, register and character, and are generally precisely indicated in the reduction. Let us quote once more the opinion of G. Abraham: 'As we shall see, it is precisely in his treatment of

the wind that Chopin is at his most poetic as an orchestrator'.³⁰ One must also not forget that Chopin entrusts a long thematic phrase in the ending of mvt. II of the *E minor Concerto* to the violins, which the piano accompanies with a delicate figuration.

These observations allow us to establish with great likelihood the scale of the authenticity of Chopin's hand in the orchestral parts:

- the places where the instrumentation can be ascribed to Chopin with the greatest degree of certitude: the indications of instruments in the piano reduction undoubtedly prepared by Chopin and the solo parts of the instruments (thematic and contrapuntal),
- the places of less certain authenticity: the harmonic accompaniments,
- the least certain places: dense *tutti* with the instruments not specified in the reduction.

The above stratification of the texture of the accompaniments cannot, of course, be effected with absolute accuracy, yet it does allow us to be bolder in correcting awkwardness in the *tutti* or in rarefying or shortening notes held for too long in the strings, since we can be confident that in interfering in these parts we are not disturbing the authentic conception of the composer. At the same time, it makes us wary with solo instrument parts. Here we allow ourselves – particularly in the developments of the first movements – to double those thematic passages which are often barely audible through the dense figuration of the more powerfully sounding modern-day piano (it is in keeping with the concert practice).

So as not to disturb in the least the above-mentioned piano-orchestra thinking of Chopin, in making alterations in doubtful places we take as our model similar undoubted places in the *Concertos* and in earlier concert works. Thus we wish to avoid the accusation of adding yet another 'foreign hand', in such a way that these corrections might be regarded rather as a 'return to the hand of Chopin'.

The effects in terms of the sound of the 'concert' scores involve above all greater clarity in the dense *tutti*, at times somewhat lighter, with the point of gravity shifted to the melody line, and a greater transparency in the chamber accompaniments. One example here is the atmosphere of the sound of *Larghetto* from the *E minor Concerto*, in keeping with Chopin's description of the mood of this movement³¹ and with Berlioz's review. On the other hand, we note an improved audibility of the thematic motifs played simultaneously to virtuosic figuration in the piano.

The sources for the 'historical' scores are the oldest homogenous written or printed orchestra parts, i.e. the 'semi-autograph' in the case of the *F minor Concerto*, and for the *E minor Concerto*, due to the lack of a score, the orchestral parts of the first French edition.

The editorial method consists in giving the text of the source as faithfully as possible, with the correction of its evident, mechanical errors. However, this simple solution does have the drawback that the presented text, although approved for print by Chopin, corresponds only in part to his intentions.

The sound of the 'historical' scores is close to that which so far has been regarded as fully authentic and which due to the nineteenth-century editions, above all those issued by Breitkopf & Härtel, also became fixed in the twentieth-century performance tradition. Thus we find here all those deficiencies criticised for 150 years.

Summary

Both types of score derive from sources, yet the basic group of sources is different for each type.

The 'concert' scores are a most particular form of reconstruction. The fact that they are based on various types of source allows for slightly greater latitude in their interpretation. Yet thanks to the use authentic sources, or others directly linked to such, they are closer to the creative intentions of the composer.

It must be pointed out here that the changes that are manifest in the 'concert' scores in comparison with the 'historical' scores tend – contrary to all previous editions and adaptations – towards making the orchestral parts more chamber-like, more in keeping with a piano part filled with subtle nuances.

The 'historical' scores are clearer with regard to editorial interference, yet contaminated by the involvement in the sources of foreign hands.

Chopin's presumed attitude towards the two types of score:

- the 'concert' scores convey that which Chopin wished to be heard,
- the 'historical' scores show that which, for various reasons, Chopin agreed to have published.

³¹ Letter to Tytus Woyciechowski in Poturzyn, Warsaw, 15 May 1830: "The Adagio to the new *Concerto* is in E major. It is not supposed to be emphatic, but more in a sentimental vein, tranquil and melancholic, and should produce the impression of gazing at a spot which brings to mind a thousand pleasant memories. – It resembles beautiful springtime reflections, albeit by moonlight. This is the reason why I accompany it by means of *sordini*, in other words, violins muffled with a kind of comb, which, by bestirring the strings, produces a nasal, silvery tone."

Initial remarks

The present commentary concerns the orchestra part alone (the solo part is discussed in the commentaries to the versions for one piano and with a second piano). It sets out the principles behind the editing of the musical text, with particular attention afforded those sections in which the extant sources give grounds for questioning the authenticity of the instrumentation. It characterises the changes made in these places by the editors and points to the evidence in sources justifying such reconstructions. Since the alterations can easily be identified by comparing the two versions of the score (historical and concert) in these places, they are not discussed in detail in the present commentary.

The discrepancies between sources are described in detail in the commentary to the historical version; this also signals the most crucial alterations made in scores of the *Concerto* printed to date. A full characterisation of sources, their relations to one another, a detailed presentation of the differences appearing between them, and also reproductions of characteristic fragments of the different sources are all contained in a separately published *Source Commentary*.

The sign → indicates a relationship between sources and should be read as 'and the source(s) based thereon'.

Concerto in F minor, Op. 21

Sources

- As** Autograph sketch of a bar and a half from mvt. I of the *Concerto* (notated together with other, mutually unrelated, sketches on the last page of the autograph of the *Trio*, Op. 8; Chopin Society, Warsaw). It comprises the whole of bar 225 in notation for two pianos and an outline of its continuation.
- [SI]** Lost manuscript of the score of the *Concerto*, at least in considerable part an autograph (some or all of the *tutti* and string accompaniments may have been written by a foreign hand), completed in Warsaw, probably early in 1830. Together with the parts which it generated, it served for public performances (Warsaw, 17 & 22 March 1830). **[SI]** constituted a point of departure for the preparation of the extant semi-autograph of the score. It also most probably served Julian Fontana for the editing of the piano reduction of the orchestra part of mvts. II & III.
- [AI]** Lost autograph of the solo part of the *Concerto*, from which Chopin performed the work in Warsaw with orchestra (the performance of concert works from music was normal usage at that time, as Chopin himself confirmed in describing his Vienna performance of the *Variations*, Op. 2, in a letter to T. Woyciechowski of 12 Sept. 1829: 'pale, with a rouged companion for turning the pages (who boasted of having turned the pages for Moscheles, Hummel, Herz [...]), I sat down at [...] the instrument').
- [PI]** Lost orchestral parts, from which the orchestra played in Chopin's Warsaw concerts.
- ½A** Semi-autograph of the score of the *Concerto* (Biblioteka Narodowa, Warsaw), prepared by Chopin in collaboration with an unidentified copyist as the basis for the first German edition of the solo part and orchestral parts, probably around the turn of 1835-1836. In later years (c.1860 and later) ½A was also used by the same publisher (Breitkopf & Härtel) in the editing of the second German edition of the piano part and two editions of the score; some additions (e.g. chromatic signs, even in the solo part) may date from this period.

½A = A + M^{orch}:

A Piano part from ½A – a Chopin autograph presumably prepared on the basis of **[AI]**. It contains the solo part and supplementary piano reduction, written in a smaller script, of purely orchestral sections and some instrumental passages. These sections include many names provided by Chopin of instruments playing particular phrases, which is of fundamental significance for the reconstruction of the orchestra part.

Also written in Chopin's hand are the title page of mvt. I and the metronomic tempi. In some fragments of the piano reduction in mvts. II & III the music written in small notation by Chopin was most probably emboldened subsequently by the copyist*.

M^{orch} Orchestra part from ½A, written out by an unidentified copyist, probably on the basis of **[SI]**. Chopin made here quite numerous changes and additions, yet not all the amendments are in his hand (identification is hindered by the fact that the character of the copyist's musical script is similar to Chopin's). One notes that the fragments of the orchestra part which it is possible to reconstruct on the basis of **A**, above all the *tutti*, differ in many respects from the version in **M^{orch}**, which points to the participation of foreign hands in producing the parts of the orchestral instruments as one finds them there (see *Editorial Conception...*, p. 2).

ReF Manuscript of piano reduction of the orchestra part of mvts. II & III of the *Concerto* (lost, photocopy in Archiwum Akt Nowych, Warsaw), prepared by Julian Fontana, most probably after 1836. The source which Fontana had before him when writing his reduction was most probably **[SI]**, as the following factors testify:

- the exact reproduction of the arrangement of some chords of the orchestra, with no account taken of the performance capacities of the piano (e.g. mvt. II, bars 24-25 & 70-72), which proves that Fontana prepared the reduction from a source containing the full orchestra part, and was not copying a part already reduced;
- the lack of certain erroneous and arbitrary entries appearing in ½A and all later sources (e.g. mvt. III, bars 14, 260) and a considerable number of further discrepancies precluding these sources as the basis for **ReF**;

— only minor differences in relation to the reduction of the *tutti* of mvt. III written by Chopin in **A**, the simplest explanation for this being that Fontana copied out the original version of this reduction as contained in **[SI]**; this assumption is made more probable by the visible amendments in **A** from the versions preserved in **ReF**, which therefore must have been earlier (on the 2nd beat of bars 53-54 **ReF** has the crotchet octave c¹-c², which is precisely the octave which in **A** Chopin altered in both these bars to the minim c²).

Indications of dynamics, articulation and agogics in **ReF** are generally written out accurately; less care was taken over the notation of slurs and ties. Some pencil additions show that **ReF** was used, doubtless by Fontana himself, for practical purposes.

ReF makes possible, to a considerable extent, the reconstruction of **[SI]** and of the directions of the changes made to the instrumentation of the *Concerto* between the first performance of the work, in 1830, and its printing, in 1836. This source, although it cannot be considered entirely authentic, in many places transmits the text which is undoubtedly closest to Chopin's intentions.

GE First German edition of version for one piano, Breitkopf & Härtel (5654), Leipzig, Apr. 1836, based on **A** (cf. *Source Commentaries* to piano versions of the *Concerto*). There exist impressions of **GE** differing with regard to the cover price and several minor details of a purely graphical nature. The following was appended to this edition:

* For an hypothesis elucidating the purpose of this procedure, see J. Ekier, 'Working on the National Edition – four communiqués', in *Chopin In Performance: History, Theory, Practice. IV International Conference* (Warsaw, 2005).

PGE Orchestral parts (same firm and number), most probably based on parts copied out and edited on the basis of **M^{orch}**. In both the handwritten basis and the printed orchestral parts, accidentals and performance markings were revised and some other errors from **M^{orch}** were corrected. A considerable number of mistakes were also made. Nothing indicates Chopin's participation in the preparation of **PGE**.

The NE editorial team is not aware of the existence of differentiated impressions of **PGE**.

FE First French edition of version for one piano, M. Schlesinger (M.S. 1940), Paris, July 1836. Two different impressions have survived:

FE1 First impression, based on **GE** and revised by Chopin. It contains a substantial number of errors in pitch, chromatics and others (some of the errors were reproduced from **GE**).

FE2 Second impression of **FE** (same firm and number), prepared shortly after the first. In the final phase of proofreading three changes, most probably from Chopin, were made in the reduction of orchestral fragments of mvt. III. These changes should be regarded as applying intentionally to the orchestra part as well. There exist copies of **FE2** differing solely with regard to details on the cover, including the price, deriving from impressions produced by Schlesinger's successor, Brandus.

PFE Orchestral parts appended to **FE** (same firm and number), in which – with a number of mistakes and minor corrections – the text of **PGE** was reproduced. Chopin had no hand in producing **PFE**. The NE editorial team is not aware of the existence of differentiated impressions of **PFE**.

EE First English edition of the *Concerto* in the version for one piano, Wessel & C^o (W & C^o N^o 1642), London, May 1836, based on a copy of **FE2** lacking several of the latest corrections to be made. Appended to this edition was **PFE**, bearing the Wessel stamp, which makes it most unlikely that the orchestral material was printed by the English publisher.

S65 First edition of the score of the *Concerto*, Breitkopf & Härtel (10721), Leipzig, 1865–1866, based on $\frac{1}{2}$ **A** compared with **PGE**. The text was subjected to a thorough revision, particularly with regard to performance markings, although many errors remained uncorrected. A salient error of considerable gravity occurs in the part of the timpani in **S65**: all the notes G (corresponding to sounds *c*) were changed to *F*, which renders the part entirely false (this notation seems to be non transposing; however, *F* consistently appears where *c* should be, and *c* where *F* (*f*) should be).

S79 Brahms's edition of the score of the *Concerto*, part of a series of the complete works of Chopin (*Erste kritisch durchgesehene Gesamtausgabe*), Breitkopf & Härtel (C XII 5), Leipzig, 1879. This edition is based on **S65** compared with $\frac{1}{2}$ **A**. Most of the errors in the base text are corrected, although new errors have occurred.

SS = **S65** & **S79**.

SSi K. Sikorski's edition of the score of the *Concerto*, part of a series of the Complete Works of Chopin, Instytut Fryderyka Chopina & Polskie Wydawnictwo Muzyczne (PWM-3821), Warsaw-Kraków, 1960. This edition is based on **S79**, with many revisions and changes in the instrumentation, harmony, dynamics and articulation. It does contain a considerable number of judicious solutions with regard to instrumentation, particularly in the parts of brass instruments; some of these we employed in reconstructing less adroit passages from $\frac{1}{2}$ **A**.

The editorial principles for the orchestra part

As the point of departure we adopt $\frac{1}{2}$ **A** (after the correction of mechanical errors; this text is published in NE as the 'historical' version of the score). In places where it may be suspected that this text does not correspond fully to Chopin's intentions, we reconstruct his intentions on the basis of **A** (taking account of his later revisions of **FE**) and **ReF**. Due to their prime significance for the editing of the present score, the last three sources – **A**, **FE** and **ReF** – will henceforth be referred to as the basic sources.

Our changes involve the following procedures (cf. *Editorial Conception...*):

1. reinforcing thematic melody lines and/or reducing the forces of accompaniments considered too heavy;
2. restoring to the bass line the density and register corresponding to Chopin's original concept, predominantly through more sparing use of double basses and trombone;
3. removing unnecessary, and not infrequently artificial, extensions of phrases played by individual instruments or groups of instruments which weaken the orchestral colouring intended by Chopin;
4. removing some of the tremolandos in the strings which were not written in Chopin's reduction and are not musically justified;
5. replacing the tied notes with repeated notes, which Chopin so readily employed in piano works;
6. shortening notes in the string accompaniment held for too long;
7. modifying horn and trumpet parts in the *tutti* with account taken of the tonal capacities of contemporary instruments; the changes are aimed at obtaining a more harmonious sound of chords and filling musically unjustified rests brought about by the difficulty or impossibility of executing certain tones on natural instruments;
8. enhancing forces where the use of strong contrasts over a short space makes it difficult or impossible to hear passages with reduced dynamics and forces, deforming the natural flow of the music;
9. removing harmonic incongruities between the solo piano part and the orchestral accompaniment;

In the more detailed part of the commentary, below, alterations are referred for justification to the classification above by bracketed digits.

Moreover, performance markings have been revised:

— we remove superfluous dynamic signs (e.g. short — and — added routinely where the melodic line rises and falls) and reduce dynamic extremes not confirmed in the basic sources;

— we set in order the slurring and other articulation markings, seeking to achieve a picture which on the one hand is as convergent as possible with sources, particularly the basic sources, and on the other hand is readable for contemporary performers.

In the case of more far-reaching alterations to the instrumentation of questionable places, we follow the example of those fragments of the *Concertos* and of earlier concert works in which the authenticity of the instrumentation is beyond doubt. In this we adhere to the principle of maximum caution, correcting only places which are clearly foreign to Chopin's musical thinking.

We do not note the reversals of string parts which were sometimes introduced (most commonly violins II with violas)

The piano part derives from volume 31 **B Vlb** (version with a second piano). We omit fingering and elements of notation deriving from editors which have no effect on the sound relations between the solo and orchestra parts (brackets and minor variants).

I. Maestoso

p. 11 Bars 5–6, 342 & 345–346 Slurs over pairs of chords played **ff** or **f** and accents on the 1st chord of such pairs are given in line with **A**. In bars 345–346, we remove the doubled notes of triads in the violins, to make legato possible.

p. 12 Bar 8 Cor. We modify the part (7).

Bars 8–19 Cb., Trbn. We remove the double bass part between the 2nd half of bar 8 and bar 11; in bars 13–18 and on the 1st quaver of bar 19 we modify the double bass part and remove the trombone part (2). The ending of the double bass part on *ab* on the 2nd beat of bar 8 unequivocally results from the orthography employed by Chopin in **A** (separation of left hand voices on the 2nd beat and no dot extending the crotchet *Ab*; in the first editions these nuances of notation were missed). Cf. similar situation in *E minor Concerto*, Op. 11, mvt. I, bar 154.

Bars 10 & 12 Ob., Fg. Missing in **A** ($\rightarrow$ FE) is the designation of the instrument performing the note f^2 at the end of the bars. As the exclusion of these notes from under the slurs covering the phrases in bars 9-10 & 11-12 might suggest a change of colour, we assign them to the oboe, reinforced in the lower octave by the bassoon. Chopin did not always indicate precisely the entries of particular instruments in reductions, e.g. the entries of the woodwind instruments in the *E minor Concerto*, Op. 11, mvt. I, bars 13-14 and 17-18 (the relevant indications do appear, however, in the development and reprise of this movement).

Bars 13-16 Fl., Cl. We supplement and modify the parts (1).

- p. 13 **Bar 15** Vni, Ob. I. In order to avoid the uncomfortable leap to ab^3 we transfer the 1st quaver f^2 from Vni I to Vni II & Ob. I.

Bars 16-19 & 22 Cor. We supplement and modify the part (7).

Bar 19 Fl. I, Ob. I. We change the 7th quaver from e^2 (e^1) to g^2 (g^1) (1).

Bars 20-25 Vni, Vle. We remove the tremolandos from the 1st quavers in these bars, in line with the articulation (dots) and slurring in **A** (4).

- p. 14 **Bars 23-26** Ob., Cor. We add the 1st oboe to the melodic forces, modifying the part of the 2nd oboe accordingly and supplementing the part of the French horn (1).

Bars 27-30 Fl., Ob., Cl., Vni, Vle. We reinforce the melodic line with the flutes and violins II, modifying the parts of the oboes, clarinets and violas (1).

Cor., Tr. We supplement the parts (7).

Trbn., Vc., Cb. We shape the bass line after **A** (2).

- p. 15 **Bar 36** Cor. II, Fg., Vc., Cb. We alter the rhythmic values according to **A**.

Bars 39-41 & 44 Cor. I in fa, Fg. I. Chopin marked in **A** the entry of the horn on the 4th beat of bar 38. In **M^{orch}** the continuation of the line led out from this tone is divided between the 1st bassoon and the French horn. We suppress this rather artificial division. The repetition in the part of the French horn of the note c^2 on the 4th beat of bar 41 is introduced according to **A**.

- p. 16 **Bar 44** Vni I. We remove eb^2 from the 4th beat, following the notation of **A**.

Bars 44-48 Vle, Vc., Cb. We remove fragments from the parts of the violas and double basses, adjusting the sound to the notation of **A** (1,2). For the same reason we modify the articulation of the basses in bar 45.

Bars 45-48 Fl., Ob., Cl., Fg. We assign the repetition of the 2nd theme phrase to the stringed instruments alone (3).

Bars 46 & 48 Cor I in fa. Following the notation of **A**, we remove bb^1 in bar 46 and shift f^2 in bar 48 down an octave.

Bar 49 Fl. At the beginning of the bar we add the minim f^2 (1).
Vni I. We remove tremolandos not marked in **A** (4).

Bars 49-51 Tr., Trbn. We remove the parts (1,2).

Bars 49-50 Vle. We modify the part in line with the notation of **A**.

Bars 50-51 Cor I. We modify the part (7).

Bar 55 Cor I in fa. As Chopin clearly marked in **A** the entry of the horn on the 2nd beat (along with the clarinets and bassoon), we remove the crotchet bb^1 at the beginning of the bar (3).

Bars 56-57 Fl., Cl., Fg., Vni, Vle. We leave only those instruments marked by Chopin in **A** (3).

Bars 58-59 Vc. We alter the 4th crotchet of bar 58 and the 1st quaver of bar 59, following the notation of **A**.

- p. 17 **Bars 59-62** Fl. We reinforce the melodic line (1).

Bars 59-63 Cb. We shift the part up an octave (2).

Bar 60 Vle. In the 2nd half of the bar we remove eb^1 , of uncertain authenticity (cf. note to historical version).

Bars 61-63 Cor. We modify the part (7).

Bars 66 & 69 Vni I, Vle. We provide rhythmic values in line with **A**.

Bars 67-73 Vle. We shift the part down an octave, in line with **A**.

- p. 19 **Bars 97-100 & 103-104** Vc., Cb. We remove the part of the double basses and, in order to preserve the shape of the bass line, shift the 4th crotchet of bar 98 in the part of the cellos up an octave (2).

- p. 20 **Bar 110** Vc. We adjust the rhythm of the bass ground to the other parts, including the solo piano (6).

Bar 111 Vni, Vle, Vc. We remove the bar-long harmonic ground of the string instruments (6).

Bars 117-118 Vni II. We adjust the rhythm to the solo piano part (9).

Bars 118-119 & 120-121 Vc. We remove the ties (5).

- p. 23 **Bar 161** Cb. We add the note Ab , in accordance with the analytical bar 311.

- p. 24 **Bars 174-175** Cb. We supplement the part, so as not to weaken the heightening tension (f in the piano part).

- p. 25 **Bars 180-181 & 183** Vni II, Vle. We modify the part of the 2nd violins, following the notation of **A** (1). We also make the requisite change to the last quaver of bar 180 in the part of the violas.

Bars 181 & 183 Fg. II, Trbn., Cb. We modify the rhythm in line with **A**.

Bars 183-184 & 186-188 Tr. We supplement and modify the part (7).

Bar 184 Cor. II. We alter the 4th crotchet (7).

Bar 185 Fl. We modify the rhythm in line with the bass (by analogy with bar 181).

- p. 26 **Bars 190-192** Ob. I. We supplement the part, reinforcing the melody (1).

Bars 190 & 192-193 Vni. We alter – in line with **A** – the 4th beat of bar 190 in the part of the 1st violins, as well as the 4th beat of bar 192 and the 1st of bar 193 in the part of the 2nd violins.

Bars 193-194 Vni II, Vle. We preserve the quaver motion written in **A** (4).

- p. 27 **Bars 196-197** Vni, Vle. In the 2nd half of bar 196 and on the 1st quaver of bar 197 we remove the tremolando, absent from **A** (4).
- Bar 200** Cor. I in fa. We remove the tie sustaining g^1 , presumably written in by mistake (5).
- Cb. We shift – according to **A** – both notes down an octave (2).
- Vni II. We modify the rhythm according to **A**.
- Bars 201-203** Cl. I. We remove the part, in line with **A**. The lack in Chopin's reduction of the octave doubling of the flute phrase is justified not only by pianistic convenience, but also by the sound: — the line of the clarinets would encroach on the string voices (cf. mvt. III, bars 137-141); — this doubling would anticipate the effect of the introduction of the octave phrase by the solo piano in bar 205.
- Bars 201-234** Fl., Ob., Cl., Fg., Vc. The term *espress.* is added by the editors, with the aim of enhancing the thematic and contrapuntal passages of the wind instruments. Cf. note to bars 233-251. With the same aim in mind we add *marcato* in the part of the cellos in bars 225 & 229.
- p. 28 **Bar 203** Vle. We remove the 2nd and 3rd crotchets doubling the bassoon solo (3).
- Bar 205** Cb. We shorten the last note of the phrase (2).
- Bars 212-217** Cb. We remove the part, partially prompted by **A** (the chords of the strings in bars 213-214, written in small notes in the piano part, have fb , and not Fb as a fundamental note) (2).
- p. 30 **Bars 223-225** Cl., Fg. We remove the athematic endings to these parts, which double the tones of other instruments (3).
- Bar 225** Cb. We shorten the crotchet to a quaver; such a rhythmic value has a corresponding note (F) in **As**.
- Bars 227-228 & 231-232** Vni, Vle, Vc. We shorten the duration of the chords (3,6). This affords greater prominence to the entries of the thematic motif in bars 228 & 232 and the solo passages of the flute and clarinet that precede them. The authentic pedalisation of the piano part ensures sufficient harmonic background.
- p. 31 **Bar 229** Vni II. In the 1st half of the bar we adjust the rhythm and phrasing to the other parts, dissecting and shortening the minim db^1 (5,6).
- Bars 233-236** Vni. In both violin parts we reinforce the melodic element and reduce the harmonic filling-in (1).
- Bars 233-251** Fl., Ob., Cl., Fg. Due to the more powerful sound of modern pianos, we double the forces in the thematic and contrapuntal passages of the wind instruments. Cf. note to bars 201-234.
- p. 34 **Bars 255-256** Vni I. In the main text we give the db^1 appearing in **Morch**. The weight of evidence suggests that the b was not omitted by mistake: — the notes db and db^1 appear in chords in the preceding bar, db^1 only 2 crotchets prior to the place under discussion, which makes an oversight on Chopin's part most improbable; — Chopin used an identical chord in an analogical harmonic context in bars 325-327. In **PGE** and the other sources naturals are added before these notes, yet nothing points to Chopin's participation in these corrections.
- Bar 256** The tremolando in the strings is added by the editors (after **SSi**) in order to reinforce the effect notated by Chopin's hand in the timpani part. Cf. crescendo and tremolando before the entry of the *tutti* in bars 180 & 336.
- p. 35 **Bar 257** Vni, Vle. On the first 3 quavers we give only the notes c , in line with the notation of **A**, in which the third and fifth of the C major chord do not appear until the 4th quaver, together with the characteristic motif.
- Bars 257-263** Fl. We modify the part, reinforcing the upper octave in the accented repetitive motif and the quaver melodic line in bars 258 & 260 (1).
- Bars 259 & 261** Vni II. In accordance with **A**, we alter the first 6 semiquavers from e^1 to g^1 .
- Bar 262** Cor., Tr. We supplement the parts (7).
- p. 36 **Bars 264-267** Cor., Tr., Trbn. We modify and supplement the parts (1,7).
- Bars 266-267** Vc., Cb. In the 2nd half of bar 266 we supplement both parts according to **A**. At the transition between bars 266 & 267 we shift the double bass part up an octave (2).
- p. 37 **Bars 277-280** Vni II, Vle. We add the part of the violas to avoid double notes in the 2nd violins in bars 277-278. Due to the *p* and *pizz.* this does not overload the accompaniment.
- p. 38 **Bar 290** Vc. At the end of the bar we insert the quaver E , in agreement with the bass line in the piano part (9).
- Bar 292** Vni I. The most probable rhythmic solution to the grace note eb^1 – as a crotchet – is written into the text, in order to avoid any misunderstanding in performance.
- Bar 294** Vc. We shorten the 2nd note, in line with the rhythm of the violins (6).
- Bars 295-297** Vni II, Vle. We transfer the part of the violas (after modification in bar 296 – cf. succeeding note) to the 2nd violins, guided by Chopin's precise indications in **A** (Violini, Cello on the chord of the 3rd beat in bar 297).
- Bar 296** Vni. We eliminate the harmonic disagreement with the piano part (9).
- p. 42 **Bar 337** Trbn. We add a quaver at the beginning of the bar.
- Bars 337 & 339** Vni. We modify the 1st half of both bars in line with **A**.
- p. 43 **Bars 341-342** In the one-bar, four-part passage Chopin did not mark in **A** any change in instrumentation or dynamics (*p* — was not added until the proofreading of **FE**). This probably means that he intended here a change in texture and register rather than forces. For this reason we strengthen the forces, following, for example, bars 199-201 (8).
- Bar 342** Ob., Cl., Cor. On the 2nd and 3rd beats we modify the parts for better conformity with the vertical arrangement of chords in **A**.
- Fg. II, Trbn., Cb. We modify (Fg. II) or remove (Trbn., Cb.) parts that are situated an octave lower than the bass line written by Chopin in **A** (2).
- Bars 343-345** Cb. We remove the part according to **A** (2).

Bars 345 & 346 Vc. We supplement the forces of the leading motif, led in **A** in octaves (2).

Bar 346 Timp. On the 4th beat we remove the tremolo, as incongruous with the *staccato* articulation of this chord in **A**.

Bars 346-348 Vc., Cb. We modify the part according to **A** (2).

II. Larghetto

- p. 44 **Bars 2 & 92 Ob., Cl., Fg.** On the 3rd and 4th beats we give the repeated notes, as in **A** (5). **ReF** has a similar version (in bar 2 it also has a tie sustaining ab^1). The single, unbroken slur over these motifs comes from bar 92 of **A**. The tenuto accents, occasionally applied by Chopin, albeit rarely (cf. bars 18 & 86, **Pfte**), are added by the editors.

Bar 4 Vle. We change eb to eb^1 , in line with **A** (2).

Bar 6 Cb. We remove $A\flat$, not written in **ReF**, which unnecessarily doubles the $A\flat$ of the piano (2).

- p. 46 **Bars 30-31 Vni I.** We modify the part in line with Chopin's handwritten correction in the analogous bars 79-80.
- p. 47 **Bar 36 Cb.** We shift the 1st note up an octave, in line with **ReF** (2).
- p. 48 **Bar 44 Fl., Ob., Fg.** We add a 2 (1).

Bars 49-57 We give a proposed dynamics that sits well with the authentic dynamics of the solo part. The lack of signs here is probably an oversight – cf. signs appearing in all sources at bars 62-67.

- p. 50 **Bars 65-66 Vle.** We modify the part according to **ReF**. Moreover, the notation of **M^{orch}** ($\rightarrow$ **PGE** $\rightarrow$ **PFE**) contains a patent error – at the beginning of bar 65 it has db^1 (changed in **SS** to cb^1).
- p. 51 **Bars 70-72 Cb.** We remove the ties sustaining eb (5).
- Bar 72 Fg. I.** We add eb , of no consequence for the sound of the chord, in order to facilitate the bassoonist's entry into the solo phrase in bar 83.
- p. 53 **Bar 91 Vc.** We repeat ab on the 2nd beat, in line with **A** & **ReF** (5). We do not introduce this effect into the double bass part, so as to make the introduction of this motif as smooth as possible.
- Bars 96-97** We give the *ppp* appearing in **ReF**, probably copied out from **[SI]**. The dynamic signs of **M^{orch}** ($\leftarrow$ $\rightarrow$) are certainly a routine addition on the part of the copy editor.

III. Allegro vivace

- p. 54 **Bars 6-7 & 330-331 Vni II.** We omit the tie sustaining db^1 (5).
- Bars 15 & 339 Vni II.** For uniformity of phrasing we repeat the $b\flat$ at the end of the bar (5).
- p. 55 **Bars 16-24 & 340-348 Fl., Ob., Cl.** We strengthen the forces of the melodic line with the flutes and 1st oboe. We also make the relevant modification in the part of the 2nd oboe, and in bars 17-19 & 341-343 also in the part of the clarinets (1). Of the two patterns of slurring written in **A** at bars 16-20 and analogous bars,

we prefer that from bars 340-344, consistent with the slurring of **M^{orch}**.

Bars 19 & 343 On the 2nd beat we give e^2 in the melody (and the corresponding e^1 in the harmonic accompaniment), following Chopin's correction in **FE2**. He certainly intended this correction to apply equally to the version with orchestra (the lack of corresponding changes in the instrumental parts is explained by the fact that Chopin took no part in the preparation of **PFE**).

Bars 20 & 344 Tr. We supplement the part by analogy with bars 18 & 342 (7).

Vni II, Vle. On the 1st beat we eliminate the seventh of the chord, f^1 , which does not appear in the basic sources.

Bars 23-24 & 347-348 Cor., Tr. We modify the parts (7).

Bars 29-32 & 373-376 Vni, Vle, Vc. The harmonic progression in bars 30-32 and analogous bars was indicated by Chopin in **A** by means of small crotchets in the left hand part. In the editors' view, this script is not only a pianistic device, but also an indication concerning the character of the string accompaniment. Hence our replacement of the dotted minims of **M^{orch}** (and all other sources) with crotchets (6). In this version, the contrast between these bars and their successors, undoubtedly intended by Chopin (*legato* written into **M^{orch}**, change of character of the solo part), is clearer.

- p. 56 **Bars 47, 51 & analogous Cor., Tr.** We modify the parts (7).

Bars 48-49 Ob. I, Cor. II. As accompaniment to the melody, led in sixths, we give – following the notation of **A** – the octave c^1 - c^2 . The version of **A** is doubtless intentionally distinguished here from the analogous bars 392-393 (**ReF** has the earlier, uniform, version in both places).

Bars 49 & 393 Fl., Ob. I, Tr. We modify the parts (1).

Bars 53 & 397 Fg. II. We change F to f , in line with **A** (2).

Bars 55, 57-59 & analogous Cor. We effect the consistent juxtaposition of the syncopations of the horns and trumpets with the chords of the remaining sections of the orchestra, in line with the version of **A**, uniform in this respect.

Bars 55-56, 59-60 & 399-400 Fl., Ob., Vni. We strengthen the forces of the melodic line and remove some sustentions of tones which are not evident from the notation of **A** (1,5).

- p. 57 **Bars 59-60 & 403-405 Vc., Cb.** We shift the relevant section of the bass line down an octave, in line with **A** (2).

Bars 63-64 Cb. We change f to F according to **A** (2).

- p. 58 **Bars 81, 83 & 89 Fl. I, Cl. I, Fg. I.** The term *espress.* is added by the editors.

Bars 84-85, 108-109 & 110-111 Cl. I, Fg. I. We remove the ties (5). These are probably contrary to Chopin's intentions, as is indicated by the accent in bar 85, written in the clarinet part of **M^{orch}**, and the lack in this source of the tie in the flute part in bars 92-93.

Bars 85-92 Vc., Cb. We remove the $A\flat$ of the double basses in bars 85-88 and modify both bass parts in bars 90-92, in accordance with **ReF** (2).

Bars 86-87, 94-95 Vni II. We remove the ties (5).

- p. 59 **Bar 97** Vle. We remove the unnecessary extension of the bass note, not marked in **ReF** (2).

Bar 105 Vni I. We remove the note bb^1 , not written out in **ReF**.

Bars 108-112 Vni II, Vle, Vc. According to **ReF**, we shift the bass up an octave (2) and in bars 109-110 we make the appropriate modifications to the parts of the 2nd violins and the violas.

- p. 60 **Bar 113** Vni I, Vle. We modify the parts according to **ReF**.

Bar 116 Vle. On the 3rd beat, in line with **ReF**, we change the ab to g (9).

Bars 120-121 Vle, Vc. According to **ReF**, we shift the bass up an octave (2) and make the appropriate modifications to the part of the violas.

- p. 61 **Bars 124-125** Vni I. We remove the tie, which is contrary to **f** in bar 125 (5).

Bars 128-129 Cl. I. We eliminate the awkward joining of phrases, removing the tie and shortening the 2nd note in bar 128.

Bars 130-131 Vni I. At the beginning of the bar we remove the syncopation (accent and tie), not written in **ReF**. Moreover, there is nothing in the notation of **A** to indicate that such a phrase opening was intended by Chopin (5).

Bars 131 & 135 Fl., Ob., Cl., Fg. We remove the notes held over from the preceding bar, not written in the basic sources (3).
Vc. According to the basic sources we change Eb to eb (2).

Bars 133-134 Vni, Vc. We remove the extension of the phrase, not written in the basic sources (3).

Bars 137-141 In **ReF** *con sf* is added beneath the quaver line of the flute. This is doubtless a remnant from the original version, in which this melody was doubled in the lower octave (probably by a clarinet). Since this doubling infelicitously encroaches on the accompanying string parts, its omission (in **Morch**) should be seen as an improvement. Cf. note to mvt. I, bars 201-203.

Bars 138-139 Vc. In line with **A**, we remove the tie (5).

Bars 141-145 Vle, Vc. It is difficult to establish Chopin's ultimate intention in this section. **Morch** has here held, syncopated fifths,

as does **ReF**:

The lack (in comparison with **Morch**) of accents and the majority of ties can be attributed to additions made during the proofreading of **Morch** and/or inaccuracies in the writing of **ReF** (the ties were most probably overlooked in **ReF**, and the accents added in **Morch**). It is highly probable that this version reflects Chopin's original idea. **A**, meanwhile, has a different version, suggesting the unification of the rhythm (and articulation) of all the instruments:

A ($\rightarrow GE \rightarrow FE \rightarrow EE$)

However, if Chopin did indeed change his conception, why did he not write such a distinct change into **Morch**, which, after all, bears quite numerous traces of his corrections? The editors consider that we are dealing here – exceptionally – with a typically pianistic version, somehow independent of the orchestra part. For this reason we leave the syncopated fifths of **Morch** & **ReF**.

- p. 62 **Bar 155** Vni, Vle. **ReF** has here – evidently by error – a rhythm such as in the neighbouring bars.

Bars 166-167 Fg. I, Vle, Vc. We modify the parts, according to the division into voices clearly notated in **ReF**.

- p. 63 **Bar 176-177, 180-181, 184-185 & 190-191** Vle, Vc. We remove the ties, partly in line with **ReF** (5).

- p. 64 **Bars 201-205** Vc., Cb. Following **ReF**, we remove the part of the double basses and alter in bar 205 the cellos' Ab to ab (2).

Bar 209 Cb. We transfer the entry of the double basses to bar 210, in line with **ReF** (2).

Bars 214-216 & 218 Cb. We modify the part in line with **ReF** (2).

Bar 217 Pfte. Sources for the solo part – **A** ($\rightarrow GE \rightarrow FE \rightarrow EE$) – have F in the bass. At the same time, in the orchestra part – in **ReF** & **Morch** ($\rightarrow PGE \rightarrow PFE$) – the bass note is the unquestionable G . This gives the second interval $F-G$ at the beginning of the bar as the harmonic ground, which – especially given the lack of resolution in the following bar (**ReF** has there $c-eb$; **Morch** has $C-eb$) – could not have been intended by Chopin in this type of accompaniment.

In bars 213-218 the lower tones of the piano together with the cellos and double basses create (in the version of **ReF**) the following progression (written on the upper staff is the harmonic scheme of the upper voices):

There are no grounds to surmise that Chopin wished to alter the bass note from G to F in this version. Due to the necessary resolution of the seventh, this would involve a change in the bass in the next bar as well (to Eb), which appears in none of the sources (such a change was made in some later collected editions).

Such a shaping of the bass line from the tones of the piano and double basses in alternation is exceptional in Chopin's works with orchestra. This may explain how, in writing **A** probably on the basis of **[A]**, containing only the solo part, he could have forgotten about the double bass entries supplementing the bass line and end the progression – 'automatically' – $Ab-Gb-F$.

- p. 66 **Bars 237-240** Cb. We shift the entry of the double basses to bar 239 and modify the part after **ReF** in bar 240 (2).

Bars 242-243 Vc. We remove the tie according to **ReF** (5).

Bars 249-257 Vc., Cb. In line with **ReF**, we extend the part of the double basses to bar 255. We subsequently extend by two bars the gb of the cellos, in order to avoid too sudden a change in the colour of the bass ground (2).

Bars 256-261 Cor. I, Vni II. The transferral of the part of the violins II to the French horn is a liberty taken by the editors. Its aim is to introduce and emphasise with tone colour the authentic note *fb*¹ in bar 260 (see succeeding note). Using the French horn in such a way is one of Chopin's favourite devices of instrumentation (cf. *F minor Concerto*: mvt. I, bars 96-98 & 313-314, mvt. III, bars 177-184; *E minor Concerto*: mvt. I, bars 181-191 & analogous, 612-621, mvt. II, bars 42-46, mvt. III, bars 96-99 & analogous, 488-492).

- p. 67 Bar 260 Cor I in fa. In *Morch* (→*PGE*→*PFE*, →*SS*) this part is given to the 2nd violins (cf. preceding note) and contains in this bar *ebb*¹, clashing with *db*² and *db*¹ in the piano. We correct this error (arbitrary entry?), in line with *ReF*, which gives *fb*¹, copied out from [SI] (in orthography for the French horn *cb*²) (9).

Bars 264-265, 278-279, 283-284 Vni I, Vle, Vc. We remove the ties (5).

Bars 267-268, 276 Vni, Vle, Vc. At the end of the 8-bar phrases we insert brief pauses in the routine harmonic accompaniment (6).

Bars 275-286 Vc., Cb. We remove the part of the double basses and in bars 283-286 we shift the part of the cellos down an octave, in line with the notation of *ReF* (2).

- p. 69 Bars 304-305 Vni I, Vc., Cb. We remove the ties, in accordance with *ReF*, in which they were clearly deleted (5).

Bars 312-313 Cl. According to *A* & *ReF* we start the new phrase from the beginning of bar 313; for this reason we remove the ties and shorten the duration of the last note of the preceding phrase (5,6).

Vc., Cb. We remove the ties, in line with *ReF* (5).

- p. 71 Bars 351-352 Vni II. According to *ReF*, we remove the tie (5).

Bars 356-357, 360-361, 362-363, 365-369 Vni, Vle, Vc. We remove the ties, in keeping with the increasingly dense rhythm of harmonic changes (5).

- p. 72 Bars 397-398 Trbn., Vc. Cb. We change *c* to *c*¹, in line with *A* (2).

- p. 73 Bars 403-404 Cor., Tr. We supplement the parts (7).

Bars 406-409 Cor. The indication Cor de signal appears in *Morch* (→*PGE*→*PFE*), doubtless copied here from [SI]. Although *A* has only Cor, written in Chopin's hand, the second part of the term (de signal) was added in *GE* (→*FE*→*EE*), in the proofreading of which the composer participated. Thus there are no grounds for questioning its authenticity. Unfortunately, there are no sources confirming the introduction of this 'signal horn', as is the case, for example, in relation to the use of mutes in the *Romance* from the *E minor Concerto* (referred to twice in Chopin's correspondence). Moreover, the possibility cannot be excluded that Chopin – either due to some practical difficulties or at someone's suggestion – rejected the idea at some stage. Nonetheless, several arguments of both historical and musical nature convince us that the use in these bars of a different instrument was intended by Chopin from the beginning:

— The effect of a post horn was fashionable in the Warsaw of Chopin's youth in popular pieces for piano and other instruments. 'A great many dances appeared before 1830 and they also constituted the bulk of the output of [the publishing house of] Klu-kowski [...]. Matching mazurkas for popularity were waltzes [...], in which a post horn can [sometimes] be heard.'

— Chopin must have been familiar with the signals of the postillions who accompanied travellers in those days. It is possible that just such a signal heard on the journey to Vienna in late July 1829 gave rise to this fragment and to the virtuoso coda into which it expands. Such may be indicated by the similarity of one of the authentic post signals used in nineteenth-century Austria (given here as it sounds on an instrument pitched at F).*

and so on.

— The change of instrument here represents a colouristic effect with implications for the expressive character of the music; after the darker colouring of the key of F minor, the brighter, breezier colour of the post horn leads splendidly into the cheerful mood that dominates the coda (F major).

The precise identification of the instrument that Chopin may have had in mind is problematic. The years in which Chopin wrote this concerto constituted a lively period in the construction of wind instruments, with new instruments invented and familiar ones perfected. Yet the most likely candidate here is simply one of the post horns in general use at that time (pitched at F).

See *Performance Commentary* at bars 349 & 406-409 and 403-409.

- p. 74 Bar 427 Vle. We change *c*¹, doubtless an oversight, to *a*, in line with *ReF* and with the analogous bar 467, convergent in all sources.

- p. 75 Bars 436-437 Vni II. We remove the tie (5).

Bars 448-449 Fl. We shift the part up an octave (1). The version of *Morch* (→*PGE*→*PFE*, →*SS*), in which the oboes play higher than the flutes, is doubtless faulty (the octave sign was forgotten, cf. *Source Commentary* to bars 394-395 of the historical version).

Bar 452 Vni II. We change the most probably erroneous *c*¹ to *a* (cf. analogous bars 412, 420 & 460).

- p. 76 Bars 471-472 Vle. We remove the tie (5).

- p. 77 Bars 477-478 Vni II, Vle. We modify the parts according to *ReF*.

Bars 491-492 The sources transmit here what is undoubtedly a contaminated text, in which almost all of them differ. The divergence and mistakes were doubtless due to the unclear notation of [SI] and the only partial participation of Chopin in editing the orchestra part. The different versions are presented below:

The lower notes C given in brackets are deleted in pencil. Also striking is the clearly erroneous 2nd chord of the right hand.

Doubts arise in respect to the sound of the 4th chord, which contains neither *f*, appearing in *ReF* & *FE2*, nor *bb*, present in *A* (→*GE*→*FE*→*EE*). Also worth underlining is the full seventh (four-note) chord at the end.

* T. Frączyk, *Warszawa młodości Chopina* [The Warsaw of Chopin's Youth] (Kraków, 1961), 271-272.

** A. Hiller, *Das große Buch vom Posthorn* (Wilhelmshaven, 2000), 92.

It should be emphasised that the visible form of this fragment was not written by Chopin's hand. Unquestionable errors here are d' instead of c' in the 4th chord and the lack of bb in the 5th. In **GE** ($\rightarrow$ **FE1** $\rightarrow$ **EE**) only the former of these errors was corrected, and in addition the bb was omitted from the 1st chord.

Chopin altered e to f in the 4th chord during the final stage of proofreading (**EE** has e).

We correct the errors of Chopin's reduction, incorporating the most certain elements from the sources – the first 3 chords according to **A**, the 4th in the version corrected by Chopin in **FE2**, and the 5th according to **M^{orch}** (in an arrangement correspond-

ing to the preceding chords of **A**). On this basis we then reconstruct the orchestral version (**1,7**). It appears highly likely that this version corresponds to Chopin's ultimate intentions. As for the most dubious bar 492, the harmonic progression appearing in the version adopted here was used by Chopin – in a similar rhythm – in the *F# Impromptu*, Op. 36, bars 31, 35 & analogous.

Cor. II in *fa*. In **M^{orch}** ($\rightarrow$ **GE** $\rightarrow$ **FE**) the note c is written in the bass clef, thus sounding f . However, the note concerned is certain to be F , since f could have been notated simply in the treble clef as c' . See note to bar 514. **SS** have the correct version.

p. 79

Bars 508-510 Vni, Vle, Vc., Cb. Taking **ReF** as our base text, we supplement the part of the double basses in bars 508-509, change the c of the violas in bars 509-510 to c' and remove the ties (2,5).

Bars 512-514 Fl., Ob., Cl., Cor., Tr., Trbn., Vni, Vc., Cb. We adjust the sound of the chords to the form resulting from the notation of **A** & **ReF** (1,2,7).

PERFORMANCE COMMENTARY

Orchestral parts can be borrowed from the Library of Orchestral Materials of the PWM Edition; Fredry 8, 00-097 Warsaw, Poland.
tel. (+48 22) 826-70-97, 828-58-50, fax (+48 22) 826-97-80
e-mail: bmo@pwm.com.pl

Notes on the musical text

Long accents signify an accent of a primarily expressive character, in which the accentuated part generally lasts slightly longer than in an ordinary accent (with shorter rhythmic values, sometimes covering two or three notes), and the drop in the intensity of the tone is smoother. General problems relating to the interpretation of Chopin's works will be discussed in a separate volume entitled *Introduction to the National Edition*, in the section headed *Problems of Performance*.

Concerto in F minor, Op. 21

I. Maestoso

- p. 11 *Beginning.* In the first *tutti* the metronomic tempo $\text{♩}=138$ appears irreconcilable with the indication **Maestoso**. If we take the tempi of the entire mvt. I of the *Concerto* as forming a certain tempo zone, then the metronomic tempo indicated by Chopin can be considered as the upper limit of this zone, corresponding, for example, to the figurate passage of the development (from bar 225). For the first *tutti*, meanwhile, the editors propose a tempo situated close to the lower limit of this zone, although no lower than $\text{♩}=112$. At the same time, care should be taken that the elasticity of tempo proper to the first movement of the *Concerto* be realised through smooth and gradual transitions between sections in different tempi. The editors thus oppose the common practice of sudden changes in tempo, clearly distinguishing cantilena from figurate sections. (The issue of Chopin's metronomic tempi is discussed more amply in the volume *Etudes* of our edition, in the initial remarks to the *Performance Commentary*.)

II. Larghetto

- p. 48 *Bars 49-57* The incorporation of the dynamic signs added by the editors is left to the discretion of the conductor, who should also take into account – needless to say – the interpretation concept and capacities of the soloist.
- p. 51 *Bar 72* It is not clear from the orthography of the sources how long the minim of the orchestra part filling the first half of the bar should sound:
— as long as the trill of the piano part, notated identically in terms of rhythm (minim with fermata),
— longer, up to the conclusion of the scale which ends the trill (counting the rhythmic values of this bar 'from the end', we see that the beginning of the second half of the bar falls in the piano part on the octave bb^2-bb^3 , i.e. after the scale).
In practice, both versions seem acceptable, although the preferred version should be consulted with the soloist.

III. Allegro vivace

- ⁷⁰ *Bars 349 & 406-409* Cor. I in fa. In bars 406-409 Chopin doubtless intended a different instrument to be used, most probably a post horn pitched at F (see *Source Commentary*). Given the possible difficulties in finding an original period instrument of this type suitable for concert performances, the editors recommend that performers wishing to take account of Chopin's intentions

use a contemporary replica of this instrument*. Another option is to replace the post horn with one of its descendants, i.e. the cor-net or flügelhorn (ideally pitched at F), which may be more readily available. The most practical variant for the use of an instrument corresponding to Chopin's intentions will doubtless become established only after a lengthy period of experimentation on concert platforms**.

Given the lack of time immediately prior to bar 406, the change of instrument should be made earlier, in bars 349-387. If a natural instrument is used, the part of the first horn in the *Tutti* in bars 388-405 cannot be executed there in its entirety. In such instances, the editors recommend the following arrangement of the parts of the 'cor de signal' and the second horn, enabling the execution of this *Tutti*:

The image shows three staves of musical notation. The top staff is for 'Cor de signal in fa' and the bottom staff is for 'Cor. II in fa'. The first system shows bars 388 and 396, with a 'Solo 3' marking above bar 396. The second system shows bar 403, which is the start of a 'SOLO' section. The notation includes various rhythmic values and dynamic markings such as *f* and *p*.

- p. 73 *Bars 403-409* One notes the lack in these bars of any indications whatsoever suggesting a deceleration or pause in bar 405. Given that Chopin employed indications of this kind many times in other parts of the *Concerto*, here it is most likely that he did not wish to halt the natural flow of the music. The custom of slowing the tempo at this point has been adopted in contemporary performance practice presumably due to the difficulties which may be experienced with the rapid execution of the signal in bars 406-409 on the French horn. The possibility of using a considerably sprightlier and more easily blown instrument than the French horn (see preceding note) facilitates the realisation of the authentic conception of a uniform tempo throughout this section.
The preservation of an unperturbed tempo here carries certain implications with respect to form, allowing one to hear in this passage, too, a regular four-bar construction, in which the beginning of the solo signal in bar 406 falls on the second (!) bar of the four-bar group. The pause in the motion generally applied by performers with a fermata in bar 405 causes bar 406 to be wrongly perceived as the beginning of a new section, and thus of the new, anticipated, four-bar group (four-bar phrasing dominates unchallenged throughout the finale of the *Concerto*).
- p. 78 *Bars 491-492* None of the sources has agogic indications here. Therefore, deceleration in these bars is an unauthentic tradition, which weakens the effect created by the general pause in bar 493.

Jan Ekier
Paweł Kamiński

* Such a replica can be ordered, for example, from the Rudolf Meinel works in Diespeck (Germany).

** The WN editors wish to express their sincere gratitude to Dr Edward H. Tarr (Bad Säckingen) for valuable hints regarding the history and performance capacities of instruments of this type.
